### UNIVERSITY SONG

हम सुमनदीप के ज्योतिधूर है, ज्ञान दीपकी ज्योत जली है ।  
नव सर्जन, नव विचार धारा, लेकर बहती लहर चली है .....  
हम सुमनदीप के .....

मंत्र मीला है मानवताका, स्नेह सभर ममता का  
सेवाव्रत संदेश मीला है, सबके प्रति करुणाका  
ज्ञान मीला है शिक्षा पाई, सेवाकी एक लहर चली है,  
हम सुमनदीप के .....

कर्ज नहीं भूलेगा इसका, जिसने विद्यादान दीया है,  
शीश झुका कर वंदन इसको, जिसने गौरव का सन्मान दीया है,  
सैरभ देखो विद्यापीठकी, गाँव गाँव बात चली है,  
हम सुमनदीप के .....

## Message from Vice Chancellor

I feel honored to present Sumandeep Vidyapeeth's Annual Report for the year 2019-20. Sumandeep Vidyapeeth bears the distinction of being the only Higher Education Institute in the state of Gujarat to be classified as a Category 1 University under the UCG (Categorization of Universities(only) for the 2018 Classified Autonomy Regulation).

Over the past one year Sumandeep Vidyapeeth has continued its quest towards achieving greater heights and newer milestones.

The university over past one year has achieved many distinctions which are reflected in this annual report. I applaud Sumandeep Vidyapeeth's faculty, staff and students for their scholarly, cultural and extracurricular achievements during the scholarly year, and look forward to their dynamism in keeping up with the ever-increasing demands of higher education institutions for excellence.

Sumandeep Vidyapeeth has continued as a torch bearer in the field of evidence-based education system. In continuation of spreading the knowledge about practice of evidence-based education among the students and faculties of healthcare field we are going to organize 4<sup>th</sup> International conference on Evidence-based healthcare. I look forward to your attendance in the same and be part of the scientific feast.

**Dr.R.P. Bharaney.**

**Vice Chancellor**

## Brief Annual Report

### A. Milestones achieved so far Since inception:

#### I. Academic Milestones:

- i. Statutory recognitions: The B.D. S, M.D. S and Dental mechanics programs have duly been recognized by the dental council of India following the affiliation of K.M.Shah Dental College and Hospital with Sumandeep Vidyapeeth.
- ii. Being a constituent unit of Sumandeep vidyapeeth the institute has got Accredited with A grade scoring 3.53. out 4 on CGPA scale.
- iii. Value Added courses that enhance the academic value of dental education have been stated and successfully conducted for around 5 years.

#### II. Milestones related to teaching and learning:

- i. The Dental Education Unit was established in the year 2012 with the aim to promote training and innovation in teaching, learning and evaluation methodologies.
- ii. Comprehensive curriculum development: All the programs run by the dental college have been regularly updated revised and implemented according Statutory recommendations, value additions from curriculum bank and with strict adherence to the evidence based education system guidelines,
- iii. Introduction of innovative teaching learning and evaluation methods: Teaching learning methods based on Evidence based education system like Role Play, Role Modelling, Peer group Discussion, Evidence based Journal club and Seminar, development of evidence based treatment protocols, Simulation methods have been introduced from time to time. Evaluation methods of continuous cumulative evaluation system and objectively structured clinical/practical examinations have been introduced for comprehensive and transparent evaluation.
- iv. E content Development and delivery: the institute has reached the mile stone achievement of training majority of the faculty members in methods of developing and delivering E content. Around 212 E content lectures have been developed and delivered by the faculty for undergraduate and post graduate teaching.

#### III. Research mile stones:

- i. The institute has a total of 15 patents in granted, published and applied status, 2 extra mural funded projects, 06 intra mural projects (SUMANDEEP VIDYAPEETH funded) and 872 number of self-funded researches.
- ii. Institute and its various departments have made landmark MOU: Department of oral and maxillofacial surgery K.M.Shah Dental college and hospital: University medical center Hamburg Germany, Department of oral medicine and radiology K.M.Shah Dental college and hospital: Department of oral medicine and radiology, institute of dental sciences, Siksha-O-Anusandhan university, Bhubaneswar Orissa, Department of oral medicine and radiology K.M.Shah Dental college and hospital: Actorius innovation and research limited, Pune and K.M.Shah Dental college and hospital: faculty of dentistry, PAHER University, Udaipur.

#### IV. Mile stone related to infrastructure development:

- i. In addition to infrastructure enhancements as prescribed by Dental council of India the institution has established the department of oral Implantology, MuskanDental home, Micro endodontic Unit and the Tobacco cessation center.

**B. Significant Achievement during the academic year 2019-20:**

The evidence of success for the introduction of Value added courses was observed for Minimally Invasive Fixed Prosthodontics, Clinical use of Platelet Rich Derivatives and Nitrous Oxide Inhalation Sedation by seeing many students registering for the above mentioned program. 1 SUMANDEEP VIDYAPEETH funded research project by the faculty. A total 14 linkages were established in this year. A total of 18 publications in PUBMED, 18 In Scopus, 10 WEB OF SCIENCE and 23 in UGC indexed journals were published by the teaching faculties in the institute.

**C. Best practices/innovations in academics, research& Management with their impact**

**Title of the Practice:**

Student Learning Support System (SLSS)

**Objectives of the Practice**

1. To have a thorough evaluation of students' progress
2. To instill and promulgate the concept of collaborative learning through assignments, discussions, demonstrations, and projects.
3. To nurture a sense of encouragement amongst students for improving their performance in subsequent examinations.
4. To enable students to inculcate and practice different learning strategies to most effectively absorb refractory topics in a pragmatic manner.

**The Context**

As teaching and learning form two sides of the same coin, neither one can be considered more important than the other. Nevertheless, it becomes essential to bridge the gap in order to have an effectual positive output from the students. To achieve an effectual and efficient output from the students it becomes essential to have a thorough functional behavior assessment. A functional behavior assessment (FBA) identifies where or in which area of education and when (pertaining to certain aspects of change in the quality and level of education), and the likely reasons why a behavior of concern happens. Behavior of concern, in its most pragmatic nature, can be defined as inability to gain or acquire new skills, unresponsiveness to instruction, inability to complete assignments or projects on time and a reduction in students' performance as evidenced by a reduction in grades. Functional behavior assessment can be undertaken in the 3 stages. First, to identify the problem and defining the behavior. Second, gathering information about the antecedents and consequences that trigger and maintain the behavior of concern. Third, forming a hypothesis by analyzing the relevant information to determine the root cause of the problem that will enable in the formulation of an effective remedial strategy. Post assessment the formulation of a learning support plan requires a multipronged approach to incorporate interventional effectiveness at various levels to address the problem. The Functional Behaviour Assessment relies on multiple sources of information such as a review of student's records, structured rating scales if present, collection of direct observation data, identification of any health issues that may have a bearing on the students' performance, consideration of environmental conditions that may impact behaviours of concern. The SLSS in its broad scope aims to achieve the above in its

most comprehensive nature while maintaining effective and congruent communication between teachers and students.

#### The Practice

##### Recommended Support System for Students

##### Categorization of Students

- Slow Performers – Up to 60% Marks
- Mediocre Learners – Above 60% to 70% Marks
- Advanced Learners - Above 70% Marks

#### **Title of the Practice:**

Introduction of Flipped Classroom as a teaching tool for the graduate program

#### **Objectives of the Practice**

1. To make teaching learning more student centric
2. To inculcate the concept of learning through videos and understanding the concepts beyond college hours.
3. To instil the habit of prior learning using provided videos and discussing the subject with the teacher/peer during lecture classes.
4. To train the students to perform exercises during practical sessions viewing the videos provided beforehand.
5. To sensitize students to view, understand the content/concept presented in the video at home (beyond college hours).
6. To develop the digital library of lectures and practical techniques involved in teaching the various subjects of the dental curriculum.
7. To be able to discuss the subject with the teacher/peer during theory lecture on the basis of the learning from the video/PPT presentation provided to the students beforehand.
8. To perform the said exercise on the basis of the learning from the video during practical session.
9. To assess the performance of the students on the said topic and identifying the need for facilitation if any

#### **The Context**

Learning has always been more productive when it is student centric. Participation of the students in teaching learning is equally important as is teachers' involvement in teaching. Conventional methods of teaching and learning have been followed for years; newer techniques have been used introduced as evidence based effective teaching and learning methods. Of these flipped classroom becomes a good student centric teaching technology.. Amongst various methods Flipped Class room concept was identified by the institution of KM Shah Dental College and Hospital to be incorporated in teaching. The method of flipped classroom had advantages of making the student more responsible in learning, gave them the possibility of revising material multiple times and reflecting the same during their theory / practical sessions. The method saved on time as the time usually ear marked for didactic activity was used by the faculty to focus on student interaction and their problem solving. However, the complex topics and demonstrations cannot be converted as flipped class room.

The practice consists of 4 phases –

1. Phase I: Preparation of high quality self-explanatory PPT presentations/video recordings of lectures and practical exercises.
2. Phase II: These videos are then provided to the students 2 days in advance to their flipped class room exercise. Flipped classroom exercise is scheduled on the day when the lecture/practical was planned according to conventional teaching schedule.

3. Phase III: Students are asked to discuss the theory subject with the teachers/peers or perform the said practical exercise and clarify the doubts that might have risen during self-study at home.

4. Phase IV: the student is then assessed by the instructors

### **Evidence of Success**

The method of flipped classroom had advantages of making the student more responsible in learning, gave them the possibility of revising material multiple times and reflecting the same during their theory / practical sessions. The method saved on time as the time usually earmarked for didactic activity was used by the faculty to focus on student interaction and their problem solving.

### **Problems encountered and Resources Required**

The complex topics and demonstrations cannot be converted as flipped class room.

Developing the digital library of lectures and practical techniques involved in teaching the various subjects of the dental curriculum understandable by the students

Preparing appropriate assessments for gauging the performance of the students on the said topic and identifying the need for facilitation if any

### Evidence Based Education System Cell

#### Objectives:

- Provide education that allows hands-on-experience both in hospital as well as in community setting with systematic evidence based approach, educational experience that emphasizes health rather than only disease with outcome-based education as a goal.
- Inculcate the technique of reasoning, ability to understand the evidence, the nature and hierarchy of the evidence, critically choose the best evidence and apply it in clinical practice.
- To facilitate a learning experience that will provide the skills to develop, implement and disseminate an evidence-based approach for effective health care practice.
- To provide the doctor/dentist/health care provider who will believe in the value of life-long learning and value the evidence in making clinical decisions over opinion for the benefit of society.

## Intuitional Animal Ethics Committee

### Objective:

The motto of Prevention of Cruelty to Animals (PCA) Act 1960 as amended in 1982, is to prevent infliction of unnecessary pain or suffering on animals. The Central Government as enumerated under PCA Act 1960 has constituted a Committee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA) which is duty bound to take all such measures as may be necessary to ensure that animals are not subjected to unnecessary pain or suffering before, during or after the performance of experiments on them. For this purpose, the Government has made "Breeding of and Experiments on Animals (Control and Supervision) Rules, 1998" as amended during 2001 and 2006, to regulate the experimentation on animals.

The objective of this SOP is to contribute to the effective functioning of the Institutional Animals Ethics Committee (IAEC) so that a quality and consistent ethical review mechanism for research on animals is put in place for all proposals dealt by the Committee as prescribed by the CPCSEA under PCA Act 1960 and Breeding of and Experimentation (Control and Supervision) Rules 1998, as amended in 2001 and 2006.

## Learning Resource Center

### Objectives & Brief Report for year 2019-20:

The Learning Resource Center, Suman Deep Vidyapeeth is rapidly growing as leading learning and research library. The Library is fully automated with KOHA Library management system. All bibliographic details of books, journals and database are accessible through the campus wide network and also accessible globally through library webpage. The library has collection of more than 33000 numbers of books, 250 plus national and international journals and databases have been subscribed every year to cater the need of researchers. The library is institutional member of DELNET for inter library loan and document delivery service. The library has established institutional repository for faculty publications and thesis & dissertations and it is accessible globally through library webpage.

Objectives of Learning Resource Centre are...

To support teaching, learning and research activity of SVDU community.

To provide teaching and learning materials to faculty and students.

To facilitate the library users for access of e-resources subscribed by library

To provide right information to right users at right time.
