

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, Oral hygiene instruction camp, Primary health care education

Date of activity: 4th, 5th august, 2019

Background of the activity: Rural population bears the brunt of the burden of oral diseases

Other agencies: None

Activity carried out by:

1. Sonali Patel (Roll no. 39)
2. Vrutti Patel (Roll no. 40)
3. Yesha Patel (Roll no. 41)
4. Kinjal Ramani (Roll no. 42)

Target Population:

1. Vishwajagruti mission Balashram, Vesu, Surat. (Screened population : 75)
2. Primary Health Care, Zankhvav. (Screened population : 17)

Total: 92 Individuals

Brief details of activities:

1. **Screening and Oral Health Education camp at Vishwajagruti mission Balashram, Vesu :**
Oral hygiene status of 75 children was screened. Children were educated about tooth brushing techniques and maintenance of proper oral health. Oral health education material i.e. Notebooks were distributed amongst the children.
2. **Screening and Oral Health Education camp at Primary Health Centre, Zankhvav:**
17 patients from the out-patient department were examined for oral hygiene status. The patients were educated for maintenance of oral hygiene and maintenance of denture hygiene.

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

Acknowledgement letter

Name of the activity: Oral Hygiene, General Hygiene, Oral health and screening programme.

Date of the activity: 21/08/2019

Background of the activity: In order to address the growing needs of dental diseases of children of Ankav, Vadodara and to make them aware about their oral health condition, a screening camp along with oral and general health education was organized and conducted.

Other Agency: None

Activity carried out by:

- **Teaching Staff :** Dr.Hemal Patel(Dept. of Public Health Dentistry)

- **Post graduate student:**Dr. Priya Shetty (II year MDS)

Dr. RituRandad (I year MDS)

- **Interns:**
- Maitri Pandya
 - Honey Panjawani
 - ManaliPanjawani
 - Farhin Patel
 - Itishri Patel
 - Kesha Patel

Dist. Vadodara-391 760. (Gujarat)

- technique to be used by children. Proper hand washing technique before and after eating food.
2. Liquid soap dispensers were distributed among the children of 9 classes.
 3. There were total 270 children whose oral health screening was done along with school health diary and informative pamphlets were distributed.
 4. They were screened for common dental problems such as dental caries, over retained teeth, mal-aligned teeth and poor oral hygiene.

Learning: It made us realize that through skits and plays children can be explained much better about the hygiene as they can easily understand and grasp the information. Children should be made aware about the importance of hygiene so that they can maintain their own oral health and general health.

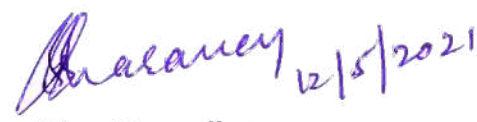

Suggested actions based on learning from the activity: More awareness programs as well as screening camps must be conducted to reach out to children as they are incapable of maintaining oral hygiene for themselves.

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of activity: 25th & 26th August, 2019.

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Farhin Patel (Roll No. 27)

Kesha Patel (Roll No. 29)

Kishan Patel (Roll No. 30)

Krishna Patel (Roll No. 31)

Activity guided by:

Dr. Sweta Singh (Professor)

Target population:

1. Ambheti Primary School, Ambheti (screened population:40)
2. Primary health center, Sub center, Ambheti (screened population:35)
3. Old Age Home, Karuna Mandir, Bardoli(screened population:13)

Total: 88 Individuals

Brief details of the activities:

1. Screening and oral health education camp at Ambheti Primary School: Oral hygiene status of 40 students of 8th standard was checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e Notebook were distributed amongst the students.
2. Screening and oral health education camp at Primary health center, Sub center, Ambheti : 35 patients from out patient department were examined for oral hygiene status. The patients were educated for Oral hygiene maintenance and adverse effects of tobacco. Health education material i.e Toothpaste and tooth brushes were distributed amongst the patients.

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Pipariya, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Name of the activity: Screening Program and oral health education

Date of Activity: 29/08/2019

Back ground for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Bhalej, Anand aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- Dr. Ritu Randad (PG)
- Mr. Darpan Panchal (Dental Hygienist)
- Ms. Seema Nagina (Intern)
- Ms. Shruti Iyer (Intern)
- Ms. Afroz (Intern)
- Mr. JashMody (3rd BDS)
- Mr. Dhairya Patel (3rd BDS)
- Mr. Piyushbhai Patel (Attender)

Activity Guided by:

Faculty Incharge/Any other person:

Dr. Pulkit Kalyan (Reader & III BDS incharge)

Dr. Ramya R Iyer (Reader & outreach program in charge) of Dept. of Public Health Dentistry, KMSDCH)

Participants: General population of village Bhalej, Anand

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 46 patients were screened and checked for common oral diseases such as dental caries, periodontal disease, mobile tooth, poor oral hygiene, mal-aligned teeth.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

We found that most of the people at that particular village were at the higher incidence of dental caries which were untreated and only root pieces of the decayed teeth were left.

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of activity: 31st August and 1st September, 2019.

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Maitri Pandya (roll no: 22)

Honey Panjwani (roll no: 23)

Aashtha Patel (roll no: 24)

Barkha Patel (roll no: 25)

Activity guided by:

Dr. Sweta Singh (PROFESSOR)

Target population:

1. SantshriSavaiyanath Primary School (screened population:300)
2. Samvedna charitable trust(screened population:53)
3. Vaswari gram panchayat(screened population:37)

Total: 390 Individuals

Brief details of the activities:

1. Screening and oral health education camp at "SantshriSavaiyanath Primary School": Oral hygiene status of 300 students of 1st to 4th standard were checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e pamphlets were distributed amongst the students.
2. Screening and oral health education camp at "Samvedna Charitable Trust": 53 students from charitable trust were examined for oral hygiene status. The students were educated for Oral hygiene maintenance and proper brushing technique.

As Institution Deemed to be University

VIII, Piparia, Taluka: Waghodia

Dist. Vadodara-391 760. (Gujarat)

3. Screening and oral health education camp at "Vaswari Gram Panchayat": 37 individuals from the village were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene and adverse effects of tobacco. Oral health education material i.e toothbrush and toothpaste were distributed.

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

Name of the activity: Screening program and oral health education

Date of Activity: 17/09/2019

Back ground for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Tarsali, Vadodara - 09 aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- Dr. Priya Shetty (PG)
- Mr. Darpan Panchal (Oral Hygienist)
- Ms. Haara Kothari (Intern)
- Mr. Aval (Intern)
- Ms. Drashti Jani (Intern)
- Ms. Dhvani Pancholi (Intern)
- Ms. Unnati Srivastava (3rd BDS)
- Ms. Jinal Shah (3rd BDS)
- Mrs. Bhavisha Patel (Nurse)

Activity Guided by:

Faculty/Incharge/Any other person: **Dr. Pulkit Kalyan** (Reader & III BDS incharge)

Dr. Ramya R Iyer (Reader & outreach program in charge) of Dept. of Public Health Dentistry, KMSDCH)

Participants: General population of village Tarsali, Vadodara

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 46 patients were screened and checked for common oral diseases such as dental caries, periodontal disease, mobile tooth, poor oral hygiene, malaligned teeth.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

We found that most of the people at that particular village were at the higher incidence of dental caries which were untreated and only root pieces of the decayed teeth were left.

Guest Speakers, Staff members of Dept of Pediatric and Preventive Dentistry,
Post Graduate Students of Dept of Pediatric and Preventive Dentistry,
Participants of CDE program organized by Dept of Pediatric and Preventive
Dentistry.

Total of 63 participants were involved in the activity.

Attested Crc

Vice-Chancellor
Sumandeep Vidyapeeth

An Institution Deemed to be University
Vill. Piparia, Taluka: Waghodia.
Dist. Vadodara-391 760. (Gujarat)

Brief details of the activity:

The total 6 saplings were planted by Eminent Guest speakers Dr Gayatri Moghe and Dr Deepesh Prajapati; Dr Shobha Fernandes, HOD and Dr Yash Bafna, reader of Dept of Pediatric and Preventive Dentistry Sankalchand Patel Dental college, Visnagar and Dr Bhavna Dave, Dean KMSDCH. The event was organized during the CDE Program. The plantation was done in the Sumandeep Vidyapeeth Campus. Department of Pediatric and Preventive Dentistry took the responsibility to nurture the planted saplings.

Learning:

All the participants were motivated to work for greener and cleaner environment through the activity. Moreover, with every sapling planted, we had put a placard, stating the importance planting trees so that the general public who visit the campus can also be motivated.

Suggested actions based on learning from the activity:

The program would motivate individuals to work for the environment, plant trees and organize such plantation activity at their individual level.

Suggested format for reporting:

Name of the activity: Oral Health, Precancer and Cancer Screening Camp'

Date of Activity: 27/09/2019

Back ground for the activity: Prior Permission was obtained from the Medical Wing of Air Force Station, Makarpura. The Officers of Air Force were briefed about the Program and Campaigning was done for the benefit of the Defense personnel. Free Dental Health Screening was done for Air-force personnel, their spouse and children. They were educated regarding the Oral Health and importance of pediatric dental care. Considering that Air- Force and Armed Force Personnel are privileged citizens of this country, their role and their health is of significance to our nation, it is our social responsibility to provide priority Oral Health Care at subsidized costs to the referred individuals.

Other agency – No

Activity carried out by: Staff of Department of Oral Pathology

Dr. Vandana Shah
Dr. Rashmi Bhavasar
Dr. Shreyas Shah
Dr. Falguni Patel
Gosai Nija (Intern Student)

Activity Guided by: Dr. Vandana Shah

Participants: A total of 31adults and 65 School Children were screened.(Total 96)

Brief details of the activity: Oral health check-up of 31adults and 65 School Children was done. Oral health posters and pamphlets were distributed for Promotion of Oral Health. All the individuals who require further dental attention/treatment were referred to K. M.Shah Dental College and Hospital, Sumandeep Vidyapeeth.

Learning: Preliminary screening of the reported individuals revealed significant need for Oral Health Care. They showed positive attitude towards receiving Dental Care and expressed the view that Saturdays were their preferred days for visiting K. M. Shah Dental College and Hospital as majority of them had weekly off on Saturdays. One important observation is Tobacco and its products in any form are not allowed in the air force Campus so we did not find precancerous and or cancerous lesions in the defense personnel.

Name of the activity: Screening program, oral health education

Date of Activity: 01/10/2019

Back ground for the activity: To address the growing needs of rural population for oral health care and as these population are more vulnerable due to lack of education and limited or no dental access there by increasing the risk of dental related disease. In order to make the inhabitants of Ratanpur village aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- Dr.Ritu Randad (PG)
- Mr. Aval Chauhan (Intern)
- Ms. Sheel Shah (Intern)
- Ms. Mahek Upadhyay(3rd BDS)
- Ms. Saloni Desai (3rd BDS)

Activity Guided by:

Faculty incharge: Dr. Pulkit Kalyan (Reader, Dept. of Public Health Dentistry, KMSDCH)

Participants: People of Ratanpur, Vadodara

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 150 patient participants were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, fluorosis and poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

Suggested actions based on learning from the activity: After screening the patients, a pick-up was organized on 03/10/2019 and oral health related problems would be taken care of.

Respected Sir/Madam:

Subject: Permission for conducting Screening Camp at Janvi Hospital, Ratanpur, Dist-Vadodara, on 01/10/2019.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Janvi Hospital, Ratanpur, Dist-Vadodara, on 01/10/2019.

The III BDS Students, Ms. Mahesh Upadhyay and Ms. Saloni Desai are authorized by our institution to assume leadership role in organizing the said community outreach program. A team of qualified dental specialists and interns under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

To
The Councillor
Dr. Dakshaben Patel
Atladara District
Dist-Vadodara
Mo.9687561857

Respected Sir/Madam

Subject: Permission for conducting Screening Camp at Atladara District, Dist-Vadodara
on 15/10/2019.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Atladara District, Dist-Vadodara, on 15/10/2019.

The III BDS Students, Mr. Kenneth Chen and Mr. Sayan Sarkar are authorized by our institution to assume leadership role in organizing the said community outreach program. A team of qualified dental specialists and interns under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

Permission Letter

Name of the activity: Screening program and Oral health education

Date of Activity: 06/11/2019

Back ground for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Ankodia Vadodara aware about their oral health, a screening camp with oral health education was organized.

Other agency – None

Activity carried out by: Faculty/Students

- Dr. Priya Shetty (PG)
 - Ms. Mega Vyas(Intern)
 - Ms.KhyatiVamja(Intern)
 - Ms. Saloni Tiwari(Intern)
 - Ms. Shefali Tadvil(Intern)
 - Mr. Harshal Jain(3rd BDS)
 - Ms. MonishaBhate(3rd BDS)
- Support staff-Patel Bhavisha

Activity Guided by:

Faculty/Any other person: **Dr. Pulkit Kalyan** (Reader & III BDS incharge)

Dr. Ramya R Iyer(Reader& outreach program in-charge of Dept. of Public Health Dentistry KMSDCH)

DR.Hemal Patel (Reader)

Participants: AnkodiaVadodara

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 37 patients were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontaldisease, mal-aligned teeth, poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral health care problems. The dental Public Health team could effectively communicate the need for Oral health care to the beneficiaries.

We found that most of the patients at Ankodia Community Home were edentulous and the others were commonly facing problem pertaining to periodontium and dental caries.

Suggested actions based on learning from the activity: After screening the patients, a pick up would be organized in the near future and oral health related problems would be taken care of.

Name of the activity: National Toothbrushing day and dental screening along with education camp at GIDC, Makarpura

Date of activity: 7th November 2019

Background for the activity: As Indian Dental Association of Public Dentistry has started a drive to celebrate the National Toothbrushing day nationwide, on 7th November each year, with reference to the same Department of Public Health Dentistry, KMSHCH organized an event where the highlights of the activity were focused on benefits of good oral health, spreading awareness about oral diseases and promoting maintenance of oral hygiene. People were also giving suggestions and advise for preventing oral diseases and safeguard their overall health.

Also to address the growing needs of rural population for oral health care and absence of dentists in the areas of GIDC, Department conducted a camp for providing awareness about how to maintain oral hygiene among the targeted group.

Activity carried out by:

Staff of Department of Public Health Dentistry -Dr. Sweta Singh

- Dr. Ramya R Iyer
- Dr. Hemal Patel
- Dr. Radhika Pathak

PG student - Dr. RituRandad

Dental hygienist- Darpan Panchal

Interns- JeenaKapletiya, ForamThesia, Dhruti Modi, Nijni Trivedi, Medha Vyas and Shefali Tadvi.

Third year: Juhi Shah and Kunjum Shah

Activity guided by: Dr. Sweta Singh and Dr. Ramya R Iyer

Other agency: Himalaya toothpaste provider (Hiora)

Participants: A) Patients who were in OPD for the day of K M Shah Dental College and Hospital along with their relatives and people who were interested being part of the event.

And 60 patients who came for the camp that was organized.

Brief details of the activity: Being National toothbrushing day, the Department of Public Health Dentistry conducted an event in which participants were distributed Himalaya toothpaste (Hiora- regular and sensitive) to the people according to their needs. Dr. Rajesh Sethuraman (additional Dean) along with other senior staff members of the institution were also part of the event.

Participants were educated about the maintaining their oral hygiene and explained Modified Bass brushing technique.

Sumandeep Vidyapeeth
Piparia, Tal. Waghodia (Vadodara)

B) Oral health education and screening camp was conducted along with modified bass technique of toothbrushing was demonstrated to the patients. A total of 60 patients were assessed and identified oral problems were dental caries, loss of teeth, periodontal diseases and oral sub mucous fibrosis.

Learning: Majority of the patients didn't have idea of proper toothbrushing, used long standing toothbrushes, and maintained poor oral hygiene. There was prevalence of dental caries and presence of tobacco stains. The main cause being poor accessibility to oral health services. Awareness was created, and oral health education was given to the population and also an urge for better treatment and accessibility of treatment was put forward.

Suggested actions based on learning from the activity: More of above-mentioned activities should be conducted and organized so that maximum number of people can be benefitted, with increased awareness for oral hygiene and self-care maintenance.

Suggested format for reporting:

Name of the activity: World Diabetes Day

Date of Activity: 16.11.2019

Back ground for the activity: As a part of World Diabetes Day celebration, the Dept of Oral Pathology & Microbiology KMSDCH organized a Free RBS check up for teaching faculty Non teaching staff and Students (both UG & PG) of KMSDCH on 16.11.2019. RBS was collected between 9.00 am -01.00 pm. The students and staff (both teaching & nonteaching, UG & PG) were encouraged to voluntarily participate in the event and we received an overwhelming response.

Other agency –No

Activity carried out by: Staff of Department of Oral Pathology

Dr. Vandana Shah
Dr. Rashmi Bhavasar
Dr. Shreyas Shah
Dr. Falguni Patel

Activity Guided by: Dr. Vandana Shah

Participants: A total of 118 Teaching, Non-Teaching Staff, UG Student and PG Students.

Brief details of the activity: The camp was organized with an objective to detect diabetes which is common disease now a day. An appropriate counseling for treatment and diet habits was done for required participant.

Following is the chart of RBS checkup performed on 16.11.2019.

Date	Group of participants	No. of participants
16/11/19	Teaching	13
	Non-Teaching Staff of KMSDCH	36
	UG Students of KMSDCH	59
	PG BDS Students of KMSDCH	10
Total		118

Learning: After conducting RBS check-up counseling for treatment and diet habits was done for required participant.

Suggested actions based on learning from the activity: Diabetes or pre-diabetes, which is one of the most prevalent diseases in today's era, requires to be taught to general community and the importance of regular checkups needs to be emphasized.

Name of the activity: Screening program and Oral health education

Date of Activity: 19/11/2019

Back ground for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Limda Vadodara aware about their oral health, a screening camp with oral health education was organized.

Other agency – None

Activity Guided by:

Faculty/Any other person: Dr. Pulkit Kalyan (Reader & III BDS incharge)

Dr. Ramya R Iyer(Reader& outreach program in charge of Dept. of Public Health Dentistry, KMSDCH), Dr.Hemal Patel (Reader)

Participants: 21 patients Limda Vadodara

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 21 patients were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, mal-aligned teeth, poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral health care problems. The dental Public Health team could effectively communicate the need for Oral health care to the beneficiaries. We found that most of the patients at Ankodia Community Home were edentulous and the others were commonly facing problem pertaining to periodontium and dental caries.

Suggested actions based on learning from the activity: After screening the patients, a pick up would be organized in the near future and their oral health related problems would be taken care of.

Respected Sir/Madam

Subject: Permission for conducting Screening Camp at Limda Gaum, Dist- Vadodara, on 19/11/2019.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Limda Gaum, Dist-Vadodara, on 19/11/2019.

The III BDS Students, Ms. Vaishali Mishra and Ms. Mahima Rai are authorized by our institution to assume leadership role in organizing the said community outreach program. A team of qualified dental specialists and interns under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of activity: 28th November- 1st December, 2019.

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Rushabh Shah (roll no: 57)

Sakshi Shah (roll no: 58)

Shefali Tadvani (roll no: 59)

Activity guided by:

Dr. Sweta Singh (Professor)

Target population:

1. Prathamikanyashala, Khambholaj (screened population: 60)
2. Primary health center, Rasnol (screened population: 15)
3. Gram panchayat, Khambholaj (screened population: 30)
4. Prathamik Kumar shala, Rasnol (screened population: 30)

Total: 135 Individuals

Brief details of the activities:

1. Screening and oral health education camp at PrathamikKanyaShala, Khambholaj: Oral hygiene status of 60 girl students of 5th to 8th standard was checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e. notebooks as well as Sanitary pads were distributed amongst the students.
2. Screening and oral health education camp at Primary Health Center, Rasnol: 15 patients from out patient department were examined for oral hygiene status. The patients were educated for Oral hygiene maintenance and adverse effects of tobacco.
3. Screening and oral health education camp at Gram Panchayat, Khambholaj: 30 individuals from the organization were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene and maintenance of denture hygiene. Oral health education material i.e. handkerchief were distributed

4. Screening and oral health education camp at PrathmikPrathmikshala, Khambholaj: Oral hygiene status of 30 students of 3rd to 5th standards was checked. The students were educated for proper brushing techniques and maintenance of proper oral health.

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

ACKNOWLEDGEMENT LETTER

પ્રતિશી,
To,
The Head of the Department,
Department of Public Health Dentistry,
K.M. Shah Dental College and Hospital,
Sumandeep Vidyapeeth, Pipariya.

Respected Ma'am,

This is to acknowledge that the dental team from Department of Public Health Dentistry K.M. Shah Dental College and Hospital comprising of interns/post graduates staff conducted a screening camp at Kumaashala Rasnol, satisfactorily on 30/11/2021 for oral diseases. The identification of treatment need of the screened persons and their referral to the institution have been informed and facilitated. There by express my gratitude to the team of K.M. Shah Dental College and Hospital for their service.

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Name of the activity: Screening program, oral health education

Date of Activity: 04/12/2019

Back ground for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Bhaniyara, waghodiya aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- Mr. Darpan (Staff)
- Dr. Priya shetty (PG)
- Ms. Priyanshi shah (Intern)
- Ms. Charvi Pathak (Intern)
- Ms. Vaidehi Upadhyay (Intern)
- Ms. Roshni Kheptwal (Intern)
- Ms. Divya Jain (3rd BDS)
- Mr. Uttam Maity (3rd BDS)

Activity Guided by:

Faculty/Any other person: Dr. Pulkit Kalyan (outreach program in charge of Dept. of Public Health Dentistry, KMSDCH)

Participants: People of Bhaniyara, waghodiya

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 45 patient participants were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, cancerous and pre-cancerous lesion, mal-aligned teeth and poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

Suggested actions based on learning from the activity: After screening the patients, a pick up would be organized. Attended to their oral health related problems would be taken care of.

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of activity: 12th - 15th December 2019.

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by: Niki Shah (roll no: 80) Richa Sharma (roll no: 82) Pooja Satani (roll no: 85) Hena Shah (roll no: 86)

Activity guided by:
Dr. Sweta Singh (Professor)

Target population:

1. ManekparaPrathmikShala, Amreli(screened population:80)
2. Primary health center, Amreli (screened population:45)
3. MahilaVikasMandal, Amreli (screened population:71)

Total: 196 Individuals

Brief details of the activites:

1. Screening and oral health education camp at ManekparaPrathmikShala :Oral hygiene status of 80 students of 6th - 8th standard was checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e tooth brush were distributed amongst the students.
2. Screening and oral health education camp at Primary Health Center, Amreli: 45 patients from out patient department were examined for oral hygiene status. The patients were educated for Oral hygiene maintenance and adverse effects of tobacco.
3. Screening and oral health education camp at MahilaVikasMandal, Amreli:71 individuals from the organization were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene and maintenance.Heath education material i. e tooth brush and tooth paste were distributed.

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

The translated document is attested by Vice Chancellor, SVDU

Name of the activity: Screening program, Oral Health Education

Date of Activity: 13/12/19

Back ground for the activity: To address the growing needs of urban population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Institute of Advanced Network Technology and Institute, Uma Chokdi.

Aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- Mr. Darpan (Staff)
- Ms Sakshi Shah(Intern)
- Ms. Rajvi Desai(Intern)
- Ms. Sunaiya Shaikh (Intern)
- Ms. Maitree Shah (Intern)
- Ms. Jalpa Shah (Intern)
- Ms. JahnviYadav(3rd BDS)
- Mr. Singh Vedant (3rd BDS)

Activity Guided by:

Faculty/Any other person: Dr. Pulkit Kalyan (Reader, program in charge of Dept. of Public Health Dentistry, KMSDCH)

Participants: People of Institute of advance network and technology, Uma Chokdi.

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 63 patient participants were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, cancerous and pre-cancerous lesion, mal-aligned teeth and poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

Suggested actions based on learning from the activity: After screening the patients, a pick up would be organized in the near future and their oral health related problems would be taken care of.

Respected Sir/Madam

Subject: Permission for conducting Screening Camp at Bhulka Bhavan Vidyalaya, Mangal Dham,, Madodhar Road, Waghodia, Vadodara- 390017, on 26/12/2019.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Bhulka Bhavan Vidyalaya, Mangal Dham,, Madodhar Road, Waghodia, Vadodara- 390017.

The III BDS Students, Ms. Vishva Vachhani and Ms. Namratha A. Ajith are authorized by our institution to assume leadership role in organizing the said community outreach program. A team of qualified dental specialists and interns under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education

Date of activity: 2nd to 5th January, 2020

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Miraj Shah (Roll no: 55)

Priyanshi Shah (Roll no: 56)

Activity guided by:

Dr. Sweta Singh (Professor)

Target population:

1. Kapura Adarsh Shala, Kapura (screened population:60)
2. Gram Panchayat, Kapura (screened population:15)
3. Kalidas Hospital, Tadkuva, Vyara (screened population:20)

Total : 95 individuals

Brief details of the activities:

1. Screening and oral health education camp at Kapura Adarsh Shala, Kapura: Oral hygiene status of 60 students of various standards was checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e notebooks were distributed amongst the students.
2. Screening and oral health education camp at Gram Panchayat, Kapura: 15 male patients from the gram panchayat of middle and old age group were examined for oral hygiene status. The patients were educated for oral hygiene maintenance, adverse effects of tobacco and cleaning & maintenance of removable denture. Oral health education material i.e toothpastes were distributed amongst the patients.
3. Screening and oral health education camp at Kalidas Hospital and Maliba Raktadan Kendra, Tadkuva, Vyara: 20 female staff members from the organization were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene. Oral health education material i.e. toothpastes were distributed.

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

Name of the activity: Screening program, oral health education

Date of Activity: 03/01/2020

Back ground for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessary makes them more vulnerable for dental diseases. In order to make the inhabitants of Karjan village aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- Mr. Darpanbhai Panchal (Dental Hygienist)
- Mr. Rushabh Shah (Intern)
- Ms. Sakshi Shah (Intern)
- Ms. Shefali Tadv (Intern)
- Ms. Miraj Shah (Intern)
- Ms. Priyanshi Shah (Intern)

Activity Guided by:

Faculty/Any other person: Dr. Sweta Singh

Participants: People of Karjan Village

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 21 patient participants were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, cancerous and pre-cancerous lesion, mal-aligned teeth and poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

Suggested actions based on learning from the activity: After screening the patients, a pick up would be organized in the near future and oral health related problems would be taken care of.

Respected Sir/Madam

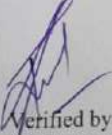

Subject: Permission for conducting Screening Camp at Government Primary School, Ganeshpura, Waghodia, Vadodara., on 06/01/2020.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Government Primary School, Ganeshpura, Waghodia, Vadodara.

The III BDS Students, Ms. Manvi Jain and Ms. Mahak Dakh are authorized by our institution to assume leadership role in organizing the said community outreach program. A team of qualified dental specialists and interns under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

RURAL HEALTH SERVICE REPORT

Name of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of activity: 17th January 2020 – 20th January 2020.

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Dipali gajjar (roll no-83)

Rutvi movaliya (roll no-84)

Charvi pathak (roll no C-13)

Activity guided by:

Dr. Sweta Singh (Professor)

Target population:

1. Sar ajitsinh sarkri highschool, Dhrangadhra (screened population:120)
2. Primary health center, kondh (screened population:25)
3. Manav seva sangh, surendranagar (screened population:73)

Total: 218 Individuals

Brief details of the activities:

1. Screening and oral health education camp at Sar ajitsinh sarkri highschool, Dhrangadhra (screened population:120) individuals from the organization were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene and maintenance of denture hygiene. Oral health education material i.e pen were distributed.
2. Screening and oral health education camp at Primary Health Cente, kondh: 25 patients from out patient department were examined for oral hygiene status. The patients were educated for Oral hygiene maintenance and adverse effects of tobacco.
3. Screening and oral health education camp at manav seva sangh , surendranagar: Oral hygiene status of 73 people was checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e braille were distributed amongst the people.

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

Brief details of the activity: Dental Check-up and Oral Health education camp was conducted on 25, 26 and 27 January 2020 at stall number 4 in which total of 450 children participants were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, mal-aligned teeth and poor oral hygiene. After the screening was done the children were asked to solve the puzzles and play games for fun and were given prizes for the same such as wrist-bands, storybooks, badges, pens and handkerchiefs. Proper tooth brushing technique was taught to the children and pamphlets regarding the same were distributed.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. Correct tooth brushing technique should be taught to children along with maintain good oral habits and hygiene at an early age so that dental diseases can be prevented.

Respected Sir/Madam

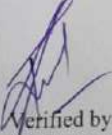

Subject: Permission for conducting Screening Camp at Government Primary School, Ganeshpura, Waghodia, Vadodara., on 06/01/2020.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Government Primary School, Ganeshpura, Waghodia, Vadodara.

The III BDS Students, Ms. Manvi Jain and Ms. Mahak Dakh are authorized by our institution to assume leadership role in organizing the said community outreach program. A team of qualified dental specialists and interns under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

RURAL HEALTH SERVICE REPORT

Name and type of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of activity: 13th February 2020 – 16th February 2020.

Background for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Yesha dixit (roll no: 69)

Esha Solanki(roll no: 76)

Vaidehi upadhyay (roll no: 77)

Suneiya shaikh(roll no: 81)

Activity guided by:

Dr. Sweta Singh (Professor, Head of department)

Target population:

1. Old age home, Dakor(screened population:22)
2. Primary health center, Bhadarsa (screened population:328)
3. Primary School, Dakor (screened population:163)

Total: 513 Individuals

Brief details of the activities:

1. Screening and oral health education camp at Old age home, Dakor:22 individuals from the organization were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene and maintenance of denture hygiene.
2. Screening and oral health education camp at Primary Health Center, Bhadarsa: 328 patients from out patient department were examined for oral hygiene status. The patients were educated for Oral hygiene maintenance and adverse effects of tobacco.
3. Screening and oral health education camp at Shri Gayatri Kanya High School, Dakor: Oral hygiene status of 163 students of 8th - 12th standard was checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e. sanitary pads were distributed amongst the students.

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on the learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

Name of the activity: Screening program & Oral health education

Date of Activity: 17/02/2020

Background for the activity: To address the growing needs of rural population for oral health care and the negation of these populations not visiting a dental professional until utmost necessarily makes them more vulnerable for dental diseases. In order to make the inhabitants of Vyara village aware about their oral health, a screening camp with oral health education was organized.

Other agency – none

Activity carried out by:

Faculty/Students

- VaidehiUpadhyay (77) – Intern
- Niki Shah (80) – Intern
- SuneiyaShaikh (81) – Intern
- Richa Sharma (82) – Intern

Activity Guided by:

Faculty/Any other person: Dr. Sweta Singh (In-charge: HOD of department of public health dentistry, KMSDCH)

Participants: 35 People of Milk Dairy, Vyara Village

Brief details of the activity: Dental Check-up and Oral Health education was conducted. A total of 35 patient were screened and checked for underlying oral problems. They were screened for common dental problems such as dental caries, periodontal disease, cancerous and pre-cancerous lesion, mal-aligned teeth and poor oral hygiene.

Learning: The program was successful and beneficiaries were made aware of preventive methods treatment available for various oral Health care problems. The dental Public Health team could effectively communicate the need for Oral Health care to the beneficiaries.

Suggested actions based on learning from the activity: After screening the patients, a pick up would be organized in the near future and oral health related problems would be taken care of.

Respected Sir/Madam

Subject: Permission for conducting Screening Camp at Vyara(Antoli) , Ta-Waghodia
Dist-Vadodara ,on 17/02/2020.

As part of the peripheral activity of the Department of Public Health Dentistry, KMSDCH, we encourage organizing dental Screening camps to cater to various sections of society. In this regard, we would be obliged if you permit such a camp to be held at Vyara(Antoli),Ta-Waghodia, Dist-Vadodara

The Interns BDS Students, Ms. Vaidehi Upadhyay, Ms. Niki Shah, Ms.Suneiya Shaikh and Ms.Richa Sharma are authorized by our institution to assume leadership role in organizing the said community outreach program.

A team of qualified dental specialists under supervision will do screening of the people who report to this program. We assure you that the best possible referral services will be provided.

Kindly grant your permission for the same and do the needful.

skit play was on oral health awareness. In screening camp total 41 patients visited to Muskan dental clinic of Dhiraj hospital. Oral screening of all the patients was done. We have also performed their cytopathological investigation and advised them for farther treatment modalities at K. M. Shah Dental College & Hospital. **Learning:** Preliminary screening of the reported individuals revealed significant need for Oral Health Care. They showed positive attitude towards receiving Oral as well as Dental health care.

Suggested actions based on learning from the activity:

The treatment options available at K. M. Shah Dental College and Hospital for various Oral Health Problems were suggested.

Subject: Permission to conduct Oral Precancer and Cancer Screening

Respected Madam,
Indian Association of Oral & Maxillofacial Pathologist has declared 25th Feb, the birthday of Dr. H M Dholakia, an eminent and senior Oral Pathologist as 'National Oral Pathologist Day' as a mark of respect to acknowledge and applaud his contributions to the field of Oral & Maxillofacial Pathology. Henceforth this day will be celebrated every year in various institutions across India. On occasion of "National Oral Pathologist Day" various activities and events, which help in creating interest and spreading knowledge about oral pathology to the community.

To make a mention here Dr. Dholakia was first Professor of Department of Oral & Maxillofacial pathology KMSDCH in the year 1999..

To mark this special day, the department of Oral & Maxillofacial Pathology plans to conduct Oral Precancer and Cancer Screening.

The events are as follows:

- > Oral precancer and cancer screening (taking cytology if required) at Dhiraj Hospital from 9 am to 3 pm
- > Oral Cancer awareness skit play by students from 10am to 11am at quadrangle, KMSDCH

Kindly grant permission for the same.
Thanking you,

- The participants were referred to K. M. Shah Dental College and Hospital for dental treatments which will be offered at discounted rates as per the Oral Health Month - March 2020 announcements.

Learning:

- Through this Social Initiative, the Department of OMR successfully spread the awareness about Oral Health Care.
- The participants were also made aware about the discounted rate benefits for Oral Health Month - March 2020.

Suggested actions based on learning from the activity:

The patients identified with dental / oral problems were given medicinal treatment and referred to KMSDCH for further dental treatment.

Subject: Seeking Permission for conducting screening and oral health education camp on
09/03/2020

Through: The Dean, KMSDCH

Dear Sir,

On the occasion of Oral Health Month celebration (March 2020) in K M Shah Dental College & Hospital, Sumandeep Vidyapeeth, the department of Oral Medicine & Radiology would like to conduct screening and oral health education program/camp at the Air force station medical centers (Darjipura and Makarpura) on 09/03/2020. The oral screening will mainly focus on identifying oral mucosal lesions and dental problems. Health education talk regarding oral mucosal lesions will be given to all the camp beneficiaries by Oral Medicine & Radiology specialist. Kindly permit us for the same.

Thanking you,
Your sincerely,

RURAL HEALTH SERVICE REPORT

Name & Type of the activity: Oral hygiene screening camp, oral hygiene instruction camp, primary health care education.

Date of Activity: 6th march 2020 to 9th march 2020

Back ground for the activity: Rural population bears the brunt of the burden of oral diseases.

Other agencies: None

Activity carried out by:

Nijni Trivedi(intern)(Roll No. 62)

Meghavyas (intern)(Roll No.64)

Dhruti modi (intern)(Roll No. 66)

Activity Guided by:

Dr. Sweta Singh (professor)

Target population:

1. Public health centre, Atali village, Wagra taluka, **Bharuch**(screened population-31)
2. BaalSuraksha Mandal Sanchalit Children Home, **Vasilla,Bharuch**(screened population-17)
3. Prathmikshala, Atali village, Wagra taluka,**Bharuch**.(screened population-45)

Total: 93 Individuals

Brief details of the activity:

1.Screening and oral health education camp at Primary Health Center, Atali: 31 patients from out patient department were examined for oral hygiene status. The patients were educated for Oral hygiene maintenance and adverse effects of tobacco. Health education material i.e.pamphlets on oral hygiene instructions were distributed amongst the patients.

2.Screening and oral health education camp atBaal Suraksha Mandal Sanchalit Children Home,Vasilla: 17 individuals from the organization were examined for oral hygiene status. The individuals were educated for maintenance of oral hygiene and maintenance of denture hygiene. Oral health education material i.e.notebooks were distributed.

3.Screening and oral health education camp at Prathmikshala,Atali -Oral hygiene status of 45 students of 2nd to 4th standard were checked. The students were educated for proper brushing techniques and maintenance of proper oral health. Health education material i.e first aid kit.

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

Learning:

The lesson learnt out of this experience is that, a large number of population in rural areas are not well aware of the importance of maintenance of good oral hygiene and that in turn increases the suffering of the individuals from dental problems.

Suggested actions based on learning from the activity:

More efforts should be put to make the rural population aware about the importance of maintaining good oral health. More screening as well as health education camps should be organized in rural setups.

ISR ACTIVITY

Name & Type of the activity: National Level E-poster/Video Competition on "AWARENESS ON SICKLE CELL ANEMIA AND DENTISTRY"

Date of Activity: 19th June 2020

Back ground for the activity: Initiative to spread awareness regarding Sickle cell Anemia and its implication in dental field.

Activity carried out by: Department of Pediatric and Preventive Dentistry, KMSDCH, SVDU

Activity Guided by:

Dr.Bhavna Dave (Professor and HOD)

Dr.Seema Bargale (Professor),

Dr.Anshula Deshpande (Professor),

Dr.Poonacha.K.S (Professor),

Dr.Pratik Kariya (Associate Professor),

Dr.Nupur Shah (Senior Lecturer)

Dr.Brijesh Tailor (Senior Lecturer).

Total Number & Type of Beneficiaries:

A total of 118 beneficiaries were there including undergraduate, interns and post graduate students from dental college all over India

Brief details of the activity:

The department of Pediatric and Preventive Dentistry had organized a national level E-poster and Video Making competition on the occasion of World Sickle cell Day to spread Awareness on Sickle Cell Anemia and Dentistry. Undergraduate, interns and Post graduate students had participated for this competition. The brochure and the guidelines with respect to this competition were circulated along with the Google form <https://forms.gle/SwKu239YUh3vZoAC7>) for registration. The competition was divided in four categories namely UG poster, PG Poster, UG Video and PG video and winners

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name & Type of the activity: Public Health Dentistry Day

Date of Activity: 19-06-2020

Back ground for the activity: Department of Public Health Dentistry celebrated "Public Health Dentistry Day" on 19th June 2020. The current Covid-19 crisis has taught the world is "Prioritize Public Health First". Hence, on this occasion, the Department of Public Health Dentistry distributed masks to COVID frontline warriors as part of its Social Responsibility endeavor.

Activity carried out by:

Dr. Sweta Singh, Dr. Ramya Iyer , Dr. Hemal Patel , Dr. Pulkit Kalyan , Dr. Radhika Pathak , Dr. Priya Shetty and Dr. Ritu Randad

Activity Guided by: Dr. Sweta Singh, Dr. Ramya Iyer , Dr. Hemal Patel , Dr. Pulkit Kalyan , Dr. Radhika Pathak

Total Number & Type of Beneficiaries: 100 (Police officers, Traffic Police, Cleaners, Auto rickshaw drivers , security staff and health workers etc.)

Brief details of the activity: Due to the current Covid-19 pandemic crisis, self Protection maintenance is must, and our first line worriers Police officers , Health workers are more exposed to the health threat. Hence we took opportunity towards social responsibility to distribute Masks to them.

Learning:

It enables a sense of social responsibility towards the vulnerable population during the crisis of pandemic due to COVID 19. It also helps to cater the essential need of the community at risk.

Suggested actions based on learning from the activity: Such programs increase the connect of dental public health professionals with the community at large.

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name & Type of the activity: Celebration of International Day of Yoga 2020 by Department of Periodontology, Day Celebration

Date of Activity: 20th and 21st June 2020

Back ground for the activity: In accordance to the international yoga day on 21st June, a day celebration was done by department of Periodontology.

Activity carried out by:

Dr Prasad Nadig

Activity Guided by:

Dr Monali Shah

Total Number & Type of Beneficiaries: 374, Faculties and students of KMSDCH

Brief details of the activity:

On 20th June, after a welcome note a session on importance of yoga was taken by Dr Prasad Nadig. A detail explanation of why yoga for dentist and what the recent evidence tells on ergonomics in dentistry and pain due to improper posture in today's practicing habits was taken. Following the literature few asana's and mudra were performed. Various breathing techniques were also demonstrated. All the participants were asked to perform the same along with the mentor.

On 21st of June an online video of the session was uploaded on the facebook page of the department. Also a competition was organized for all the staff and students of KMSDCH where they were encouraged to click on yoga pose performed by them and upload it on the goggle form. Total of 374 entries was noted and prizes were announced for the same.

Learning: Importance of yoga for dentists along with few Mudra, breathing techniques and some asana that can be performed by participant.

Suggested actions based on learning from the activity: All the participants got willingly motivated to perform simple yoga asana for beginners as a part of their daily habit at home.

REPORT OF MOUTH MASK DISTRIBUTION PROGRAM

Name & Type of the activity: Mouth Mask Distribution Program.

Date of Activity: 23rd June 2020 (International Widow's Day)

Background for the activity: Distribution of mouth masks among underprivileged widows of pipariya village in order to help them take necessary precautions during the covid-19 pandemic.

Activity carried out by:

Dr. Hemal Patel

Dr. Ritu Randad (PG Representative)

Mr. Darpan Panchal

Activity Guided by:

Dr. Bhavna Dave (Dean, KMSDCH)

Dr. Pulkit Kalyan (Reader, Dept. of Public Health Dentistry)

Dr. Hemal Patel (ISR Coordinator, KMSDCH)

Participants:

Total 50 Widows who are residing in pipariya village

Brief details of the activity:

A mouth mask distribution program was carried out in Pipariya village on international widow's day to help the widows take precautionary measures and inculcate the habit of wearing masks regularly in the current covid-19 pandemic.

Learning: wearing masks not only help in protecting ourselves from potential covid affected people surrounding us but also others as a cumulative precautionary method.

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name of the activity: Oral Hygiene Day 2020 (*Under the Banner of Swachh Bharat Abhiyan*)

Date of Activity: 1st August 2020

Back ground for the activity: Oral hygiene maintenance is a part of general hygiene. A healthy mouth is a reflection of a healthy body. Oral hygiene is the foremost aspect of personal hygiene and personal hygiene consciousness is pivotal to creation of clean environment. Hence, Department of Public Health Dentistry conducted Oral Hygiene Day on 1st August 2020, under the banner of Swachh Bharat Abhiyan, appropriately targeting the Swachhata workers.

Activity carried out by: 09 Participants

Dr. Sweta Singh (Faculty)
Dr. Ramya Iyer (Faculty)
Dr. Hemal Patel (Faculty)
Dr. Pulkit Kalyan (Faculty)
Dr. Radhika Pathak (Faculty)
Mr. Darpan Panchal (Dental hygienist)

Vill. Piparia, Taluka: Waghodia.
Dist. Vadodra-391 760. (Gujarat)

Total Number & Type of Beneficiaries: 28 Swachhata workers (Aaya masi & Attenders of KMSDCH)

Brief details of the activity:

On this occasion of Oral hygiene Day two activities were conducted

A: The Oral Hygiene talk was given by Dr. Radhika Pathak on the topic of Importance of Oral hygiene Maintenance to the participants on how to maintain proper oral hygiene and its importance. Also the consequences of improper oral hygiene maintenance were emphasized.

B: Free samples of oral hygiene care products like toothpaste, gum paint and mouthwash were given by Dr. Rajesh Sethuraman (Additional dean of KMSDCH) and the faculty of the Department of Public Health Dentistry, to the Swachhata workers.. Health education material pamphlets were also distributed by interns to beneficiaries of the program.

Learning: Awareness was created on how to maintain good oral hygiene and its benefits and importance of oral health to the general health. Swachhata workers needed to be informed about oral hygiene as they are the work force engaged in mission for clean city and clean nation. They are the important channels to propel oral hygiene promotion among the masses.

Suggested actions based on learning from the activity: A screening can be organized for the participants to assess their oral health needs.

Vice-Chancellor

Sumandeep Vidyapeeth
An Institution Deemed to be University
Vill. Piparia, Taluka: Waghodia.
Dist. Vadodra-391 760. (Gujarat)

Total Number & Type of Beneficiaries: 75 Patients within Sumandeep Vidyapeeth Campus

Brief details of the activity: Orthodontic treatment awareness pamphlets were distributed amongst the patients who presented in Sumandeep Vidyapeeth Campus on 5th October by Interns posted in Department of Orthodontics and Dentofacial Orthopaedics. One minute video was prepared regarding awareness of Orthodontic treatment by Postgraduate students and same was sent to IOS public awareness committee. Pamphlets were distributed regarding the instructions to be followed during Orthodontic treatment to the patients visiting to our department for the whole month of October 2020 by respective Postgraduate student and faculty.

Learning: Awareness was spread amongst general public (patients within Sumandeep Vidyapeeth Campus) regarding why to undergo orthodontic treatment and the various orthodontic treatment modalities.

Suggested actions based on learning from the activity: More screening camps can be conducted from the college in order to spread awareness amongst more and more general public.

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name of the activity: National Tooth Brushing Day

Date of Activity: 7th November 2020

Background for the activity: Oral health is essential for general health as well as for quality of life. Dental caries is common chronic dental disease; however, it can be easily prevented by proper preventive practices. Tooth brushing has been the most effective and simple way to prevent dental caries & periodontal diseases. Hence, Department of Public Health Dentistry, K. M. Shah Dental College & Hospital, Sumandeep Vidyapeeth, observed National Tooth Brushing Day on 7th November 2020 to reinforce the importance of children's oral health & to promote good tooth brushing habits recommended by dental health professionals, in line with the philosophy of Indian Association of Public Health Dentistry.

Activity carried out by:- 02 Participants

Dr. Priya Shetty (3rd year PG student)

Dr. Ritu Randad (2nd year PG student)

Activity Guided by:

Dr. Sweta Singh (Faculty)

Dr. Ramya R Iyer (Faculty)

Dr. Hemal Patel (Faculty)

Dr. Pulkit Kalyan (Faculty)

Dr. Radhika Pathak (Faculty)

Other Agency: None

Total Number & Type of Beneficiaries: 06 teachers

Brief details of the activity:

On this occasion of National Tooth Brushing Day two activities were conducted, which were

1. Online Oral Health Education Program for teachers of Montessori World Preschool, Madhavpura, Vadodara, on the "Importance of Tooth Brushing, Supervised Tooth Brushing for kids & Other Oral Hygiene Practices."
Online oral health education to teachers was provided through a scheduled ZOOM online meeting.
2. Launching and Dissemination of a short video (Oral health educational video) promoting tooth brushing among kids, which was shared on social media apps and platforms to parent's groups.

Learning: Oral health education when delivered to teachers has a ripple effect, with impact on children and parents. Learning made fun is an effective and arouses interest across all age target

INSTITUTE SOCIAL RESPONSIBILITY – PROGRAM CONDUCTED IN NOVEMBER 2020

Name & Type of the activity: Day Celebration – International day of Radiology (IDoR) 2020

Date of Activity: 08/11/2020

Back ground for the activity: This is a difficult time for the whole world as the spread of the COVID-19 pandemic affects so many areas of our lives. In challenging times like these, hope can be a powerful force for change and a compelling source of reassurance. The tireless and tremendous efforts and dedication of medical staff in fighting the pandemic gives everyone hope. In 2020, the International Day of Radiology was therefore dedicated to all imaging professionals and their essential role in fighting the COVID-19 pandemic making an indispensable contribution to the diagnosis and treatment of COVID-19 patients. Hence, for IDoR 2020, the motto was

‘Radiologists and radiographers supporting patients during COVID-19’.

Faculty – Dr. Chandramani B. More,

Dr. Rashmi Venkatesh,

Dr. Deepa J. Patil (Program Coordinator)

Dr. Palak H. Shah

PG – Dr. Badi Kavita

UG/Interns– Mr. Harsh Bhat, Ms. Bhumi Patel, Ms. Diksha Bhagat, Mr. Milind Chudasama

Activity Guided by: Dr. Chandramani B. More, Dr. Rashmi Venkatesh, Dr. Deepa J Patil and

Dr. Palak H. Shah

Number & type of Beneficiaries:

- **No. of beneficiaries** – 80
- **Type** – OMR Dental faculty across the nation
OMR Postgraduate Students across the nation
OMR Practitioners across the nation
Undergraduate Dental students across the nation
KMSDCH teaching faculty, Post Graduate students and interns

Brief details of the activity:

- The brochure for this national level ISR event was circulated to the target population via various social media.
- E-poster competition was organized and the entries were invited. The theme for the poster was 'Radiologists and radiographers supporting patients during COVID-19'. The participants sent their e-posters to OMR, KMSDCH mail id.
- Total 20 e-posters were received and the posters were scrutinized on 08/11/2020 i.e, IDoR by OMR faculties and segregated as per their category.
- As per the directives of International Day of Radiology group, the event was posted on Sumandeep Vidyapeeth Social Media on 08/11/2020.
- On 09/11/2020 the E-poster display and Judging was organized in Lecture hall-2, KMSDCH. Dr. Bhavna Dave, Dean KMSDCH was invited for judging the Posters.
- Only 15 beneficiaries were allowed once during display of posters to avoid mass gathering during COVID 19 pandemic. Total 4 times e-poster display was given. During each session Dr. Rashmi, Dr. Deepa and Dr. Palak explained the importance of Oral radiologist and the personnel protective measures to be taken by dentist during taking intra or extra oral radiographs during this COVID -19 pandemic.

The motto for IDoR 2020 is,

"Radiologists and radiographers supporting patients during COVID-19"

With this phrase, we invite everyone to celebrate the critical role that imaging has played during the current crisis. We invite Undergraduates, Interns, Postgraduates and Faculty to participate in the online E-poster competition based on the theme.

Guidelines:

- All the E-posters should be in JPEG format, 300 dpi resolution.
- There shall be one participant per poster and should not include any identity.
- All the E-posters should be mailed to onlineomrkmsdch@gmail.com by 07/11/20.

The results will be announced on 09/11/20 and E certificates will be provided.

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name & Type of the activity: Celebration of World Diabetes Day 2020 by Department of Periodontology, Day Celebration national level event

Date of Activity: 14th November 2020

Back ground for the activity: In accordance to the World Diabetes Day on 14th November, a day celebration was done by department of Periodontology.

Activity carried out by:

Dr Yesha, Dr Nikee, Dr Mudra, Dr Nishant, Dr Sandra, Dr Aastha, Dr Tapasvi, Dr Hardi, Dr Pankti, Dr Richa, Dr Priyana.

Activity Guided by:

Dr Monali Shah

Total Number & Type of Beneficiaries: 22, UG and PG students of colleges across the country

Brief details of the activity:

A complete online activity was arranged for all the participants. On 14th november an online video regarding the awareness of Diabetes and its effect on Periodontium was uploaded on the facebook and instagram page of the department. 84 participants on facebook and 124 participants on instagram viewed the video. The video was prepared by all the postgraduates of the department that explains what is diabetes, its symptoms and its effect on the oral health of the patient. Also a message on how Periodontitis affects the blood sugar level was conveyed in the video.

A national level e-poster competition was organized for staff, students and practitioners on the theme of Community Awareness regarding Diabetes and Periodontal Disease: A Two way Street. A Google form was shared wherein all the participants have filled their details and uploaded the e-poster. Total of 22 students participated and prizes were announced for the same.

Learning: Importance of Diabetes mellitus in maintaining oral health was explained to all the target audience by social media platform.

INSTITUTE SOCIAL RESPONSIBILITY – PROGRAM CONDUCTED IN DECEMBER 2020

Name & Type of the activity: Day Celebration – WORLD AIDS DAY 2020

Date of Activity: 01/12/2020

Back ground for the activity: Each year, World AIDS day is observed with a particular theme in mind. For 2020, the theme was, **“Ending the HIV/AIDS Epidemic: Resilience and Impact”**, which was focus on creating global solidarity among people who live with HIV and also seek to destigmatise the health issue. December 1 is observed as World AIDS Day in order to raise awareness and to unite people worldwide in the fight against the global health issue of acquired immunodeficiency syndrome. It is also significant to fight the stigma around it and focus on providing care and support for those who are already living with the disease.

Faculty - Dr. Chandramani B. More,

Dr. Rashmi Venkatesh,

Dr. Deepa J. Patil,

Dr. Palak H. Shah.

PG – Dr. Badi Kavita

Intern – Ms. Devmane Shivani

Activity Guided by: Dr. Chandramani B. More, Dr. Rashmi Venkatesh, Dr. Deepa J Patil and Dr. Palak H. Shah

Number & type of Beneficiaries:

- **No. of beneficiaries** – 103
- **Type** – KMSDCH teaching faculty & non teaching faculty,
Post Graduate students and interns of KMSDCH
Walk in patients of KMSDCH on 1/12/2020

Brief details of the activity:

- The brochure for this World AIDS Day-2020 event was circulated to the staff and students of KMSDCH. Personnel invitation to Dean and teaching faculty was given to gather in KMSDCH Reception area at 10.30 am to take the pledge.
- Teaching faculty, non teaching faculty, PG students and Interns were provided Red AIDS day ribbon individually.
- At the Reception area pledge taking and AIDS awareness speech about the protection and prevention of AIDs were conducted.
- All the students, teaching and nonteaching faculty, Pg students, Interns were asked to take pledge with the slogans in English & Hindi language. The slogans were
 - “End the HIV/AIDS: RESILIENCE AND IMPACT” ,
 - “Better to protect rather than regret”,
 - “Be an AID, not an AIDS patient”,
 - “No Drugs, No needles, No Aids”.
- All the participants (faculty, students and patients) of the event were asked to drop their signature as a witness to this awareness program held on 1/12/2020.
- E-certificates were mailed to all e-poster participants and winners.

Attested CTC

Vice-Chancellor

Sumandeep Vidyapeeth
An Institution Deemed to be University
Vill. Piparia, Taluka: Waghodia.
Dist. Vadodara-391 760. (Gujarat)

Learning:

- All the participants benefited the knowledge regarding the protection and prevention of the spread of AIDS/HIV and about red ribbon, the universal symbol of awareness of, support for and solidarity with people living with HIV.

Suggested actions based on learning from the activity:

- Every individual should follow proper care like while use of contaminated syringe for medical purposes or shared activities such as injecting drugs into the bloodstream, sexual intercourse not protected through a condom or diaphragm or from an infected mother to child during pregnancy, birth or through breastfeeding.
- In absence of any cure for HIV/AIDS, prevention is the best way to safeguard oneself against this infectious disease that can threaten life if not treated -- always insist on using a disposable syringe if you need regular blood transfusion or need to insert syringes in your body frequently, use protection during sex, and get tested for HIV before planning a family.

AIDS Awareness Activity of Dept of Oral Pathology

Name of the activity: "AIDS Awareness"

Date of Activity: 01/12/2020

Back ground for the activity: AIDS is an ever increasing and prevalent group of diseases which has long term complications and life threatening outcomes. Knowledge regarding its spread, causes and management among the low economic strata and less educated class is low. Hence as a part of World AIDS Day celebration and activity to create such awareness and spread the right message was planned.

Other agency - NA

Activity carried out by: Dept. of Oral Pathology and Microbiology, KMSDCH

Faculty: Dr. Rashmi Bhavasar, Dr. Shreyas Shah

Activity Guided by: Dr. Vandana Shah.

Participants: 44 Non Teaching Staff

Brief details of the activity:

An AIDS Awareness talk was organized for Non-Teaching Staff of K. M Shah Dental College in local (Gujarati) language. Dr. Falguni Patel, Senior Lecturer, Dept. of Oral & Maxillofacial Pathology delivered the talk. It was conducted from 2.00 pm to 2.30 pm

Learning: Sensitized non- teaching faculty towards HIV & AIDS awareness.

Suggested actions based on learning from the activity: There is a need/ requirement for more health related activities and information for non- teaching faculty, especially about the ongoing pandemic of COVID-19 and other debilitating chronic diseases.

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name & Type of the activity: "Oral Premalignant Screening Camp in Makarpura GIDC for Industrial Workers"

Place of Activity: Microfine Product Factory, Monark Fiber Street No-810, Parvati Technocast Factory, Vadodara.

Date of Activity: 08/12/2020

Back ground for the activity:

Oral Cancer and Precancerous screening clinics

Oral Precancer and Cancer is one of the most prevalent diseases in India due to high tobacco consumption, lack of education and awareness of the possible complication of the disease.

This screening activity was thus planned on a regular basis to screen people with tobacco habits for presence of precancer or cancer and create awareness through education and counseling.

Name of the Department: Oral Pathology and Microbiology.

Activity carried out by: Dr. Vandana Shah, Faculty

Activity Guided by: Dr. Vandana Shah

Total Number & Type of Beneficiaries:

35 of beneficiaries working in the factory. All staff and factory workers were screened.

Brief details of the activity:

In association with Department of Oral Surgery, a senior staff Dr. Prachur Malhotra and a PG student Dr. Parth Shah accompanied for the camp that was organized to detect oral cancer and precancerous lesions and conditions. The entire oral cavity was examined for other dental problems. The patients who gave history of tobacco consumption in any forms were advised to quit the habit. For further treatment and guidance they were advised to visit K.M. Shah Dental College and Hospital.

Learning:

Screening of all the 35 workers of the factory enabled recognizing various dental problems and enquiries of the patients and also helped in delivering counseling to the patients with regards to their deleterious habits. Diagnosis of premalignant lesions helped in analyzing and determining various factors that contributes to the development of precancerous and cancerous lesions.

Suggested actions based on learning from the activity:

There is a need to educate the people on quitting of habits through tobacco intervention initiative and also regarding oral premalignant and malignant lesions of the oral cavity.

SUB: Permission to organize oral cancer screening camp at Makarpura GIDC Dental Clinic every Tuesday.

Respected Ma'am,

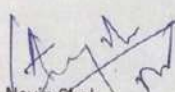

The Department of Oral and Maxillofacial Surgery and Oral Pathology are in co-ordination proposing to start a regular weekly screening camp for early detection of oral precancer cancer and other oral pathologies at Makarpura GIDC dental clinic, Vadodara. This type of regular screening camp will help in early detection of oral cancer and will help in imparting early treatment so as to reduce surgical morbidities and thus mortality rates. Simultaneously, we can conduct preventive campaign so that the incidence of oral cancer can be minimized in the given population. This camp can also help us in diagnosis of early white lesions and oral submucous fibrosis. Dr Prachur Kumar Malhotra will be monitoring and visiting the facility in person or through an authorised post graduate student every Tuesday between 10am to 1pm along with one Post Graduate of OMFS and one Postgraduate/faculty from department of Oral Pathology. The post graduate students of both departments will carry out required screening and diagnostic procedures. The patients thus diagnosed will be referred to the college for appropriate treatment and management.

We want to initiate this procedure under our departments ISR responsibilities. We also request you to sanction 1000 pamphlets and 10 banners for the same, for creating awareness among the people. We also request to provide a transportation for 4 persons every Tuesday from college to clinic and back.

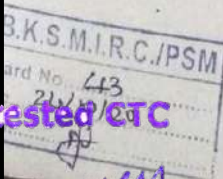

We would be obliged if you would grant us permission for the same.

Thanking You.

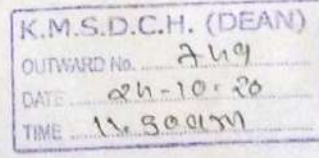

Yours sincerely,

Dr. Navin Shah,
HOD,
Department of Oral & Maxillofacial Surgery.

INSTITUTIONAL SOCIAL RESPONSIBILITY REPORT

Name & Type of the activity: Oral cancer and Precancer screening activity

Place of Activity:

Shree Dutt Industries, SI Sitchgear Industries and Shree Khodiyar Engineering (Makarpura Industrial Estate Charitable Trust), Vadodara.

Date of Activity: 29-12-20

Back ground for the activity: Oral Cancer and Precancerous screening clinics

Oral Precancer and Cancer is one of the most prevalent diseases in India due to high tobacco consumption, lack of education and awareness of the possible complication of the disease.

This screening activity was thus planned on a regular basis to screen people with tobacco habits for presence of precancer or cancer and create awareness through education and counseling.

Name of the Department:

Oral Pathology and Microbiology

Activity carried out by:

Dr. Christina Sara James, Post Graduate

Activity Guided by: Dr Vandana Shah

Total Number & Type of Beneficiaries:

60 beneficiaries working in the factory. All staff and factory workers were screened.

Brief details of the activity:

In association with Department of Oral Surgery, a senior staff Dr. Prachur Malhotra and a PG student Dr. Neha Shukla and an intern Ayushi More, accompanied for the camp that was organized to detect oral cancer and precancerous lesions and conditions. The entire oral cavity was examined

for other dental problems. 4 patients were diagnosed with premalignant lesions. The patients who gave history of tobacco consumption in any forms were advised to quit the habit. For further treatment and guidance they were advised to visit K.M.Shah Dental College and Hospital.

Learning:

Screening of all the 60 workers of the factory enabled recognizing various dental problems and enquiries of the patients and also helped in delivering counseling to the patients with regards to their deleterious habits. Diagnosis of premalignant lesions helped in analyzing and determining various factors that contributes to the development of precancerous and cancerous lesions.

Suggested actions based on learning from the activity:

There is a need of camps and awareness programs so to educate the people on quitting of habit (tobacco consumption) and also regarding oral premalignant and malignant lesions of the oral cavity.

SUB: Permission to organize oral cancer screening camp at Makarpura GIDC Dental Clinic every Tuesday.

Respected Ma'am,

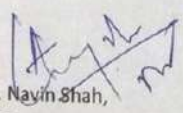

The Department of Oral and Maxillofacial Surgery and Oral Pathology are in co-ordination proposing to start a regular weekly screening camp for early detection of oral precancer cancer and other oral pathologies at Makarpura GIDC dental clinic, Vadodara. This type of regular screening camp will help in early detection of oral cancer and will help in imparting early treatment so as to reduce surgical morbidities and thus mortality rates. Simultaneously, we can conduct preventive campaign so that the incidence of oral cancer can be minimized in the given population. This camp can also help us in diagnosis of early white lesions and oral submucous fibrosis. Dr Prachur Kumar Malhotra will be monitoring and visiting the facility in person or through an authorised post graduate student every Tuesday between 10am to 1pm along with one Post Graduate of OMFS and one Postgraduate/faculty from department of Oral Pathology. The post graduate students of both departments will carry out required screening and diagnostic procedures. The patients thus diagnosed will be referred to the college for appropriate treatment and management.

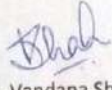

We want to initiate this procedure under our departments ISR responsibilities. We also request you to sanction 1000 pamphlets and 10 banners for the same, for creating awareness among the people. We also request to provide a transportation for 4 persons every Tuesday from college to clinic and back.

We would be obliged if you would grant us permission for the same.

Thanking You.

Yours sincerely,

Dr. Navin Shah,
HOD,
Department of Oral & Maxillofacial Surgery.

Dr. Vandana Shah,

Brief details of the activity:

Awareness Campaign through local media was done before the date of camp to inform the beneficiaries about the camp date, time and type of services available.

Before the actual day of camp the site visit to see the facilities and for arrangements for camp.

On the camp day the separate counter is made for information, registration and separate OPD are created for each specialty.

According to the need of the patient each beneficiary is being guided.

Once the check-up is complete the beneficiary comes to the final counter where he is being provided with medicines for minor illness or else guided by the staff at the counter to visit the base hospital for further treatment.

CONSTITUENT INSTITUTE OF SUMANDEEP VIDYAPEETH
AN INSTITUTION DEEMED TO BE UNIVERSITY

Brief details of the activity:

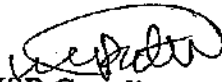

Awareness Campaign through local media was done before the date of camp to inform the beneficiaries about the camp date, time and type of services available.

Before the actual day of camp the site visit to see the facilities and for arrangements for camp.

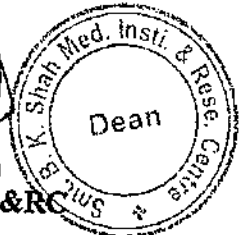

On the camp day the separate counter is made for information, registration and separate OPD are created for each specialty.

According to the need of the patient each beneficiary is being guided.

Once the check-up is complete the beneficiary comes to the final counter where he is being provided with medicines for minor illness or else guided by the staff at the counter to visit the base hospital for further treatment.

Brief details of the activity:

Awareness Campaign through local media was done before the date of camp to inform the beneficiaries about the camp date, time and type of services available.

Before the actual day of camp the site visit to see the facilities and for arrangements for camp.

On the camp day the separate counter is made for information, registration and separate OPD are created for each specialty.

According to the need of the patient each beneficiary is being guided.

Once the check-up is complete the beneficiary comes to the final counter where he is being provided with medicines for minor illness or else guided by the staff at the counter to visit the base hospital for further treatment.

ISR Activity Report

Name of the activity: Awareness about COVID 19 at RHTC Bahadarpur village.

Date of Activity: 18-03-2020.

Back ground for the activity:

The outbreak of a mysterious new Corona Virus is rapidly spreading in country since March 2020. The whole world is going through the fear of this Corona Virus. As part of awareness and active participation, Department of Community Medicine SBKS MIRC, Sumandeep Vidyapeeth our intern's doctors and social worker are given knowledge to the people how to protect ourselves from COVID-19 infection.

Other preventive steps are

- Maintain personal hygiene.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your face during cough or sneeze and wash your hands after coughing or sneezing.
- Clean and disinfect frequently touched objects and surfaces.
- Preferably, use simple cloth mask while traveling or working in public places to avoid droplet transmission
- If you suspect Corona Viral infection, wear a mask and contact your nearest hospital immediately.

Venue: RHTC Bahadarpur.

Activity carried out by:

The activity is carried out by Sumandeep Vidhyapeeth SBKS MI&RC, Department of Community Medicine with support from all MBBS Intern Doctors & Social worker.

ISR Activity Report

Name of the activity: Homoeopathy medicine **Arsenic album 30** distribution in Sumandeep Vidhyapeeth campus for Prevention of Corona virus Infections

Date of Activity: 18/05/2020

Back ground for the activity:

The outbreak of a mysterious new Corona Virus is rapidly spreading. The whole world is going through the fear of this Corona Virus, the Research Councils under the Ministry of AYUSH, Government of India have issued advisory based on the Indian traditional medicine practices Ayurveda, Homeopathy and Unani.

The Group of Experts inter-alia has recommended that homoeopathy medicine Arsenicum album 30 could be taken as prophylactic medicine against Corona virus infections. It has recommended one dose of Arsenicum album 30, daily in empty stomach for three days. The dose should be repeated after one month by following the same schedule incase Coronavirus infections prevail in the community.

However, the Central Council for Research In Homeopathy (CCRH) of the Ministry of AYUSH is of the opinion that other preventive options should continue use along with this Arsenicum album.

Other preventive steps are

- Maintain personal hygiene.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your face during cough or sneeze and wash your hands after coughing or sneezing.
- Clean and disinfect frequently touched objects and surfaces.
- Preferably, use simple cloth mask while traveling or working in public places to avoid droplet transmission
- If you suspect Corona Viral infection, wear a mask and contact your nearest hospital immediately.

Prophylactic Measures/Immunomodulatory drugs as per the Ayurvedic practices.

Measures shall be taken to strengthen the immune system through a healthy diet and lifestyle practices.

Brief details of the activity:

1) We have distributed homoeopathy medicine Arsenicum album 30 with the help of MSW and Intern doctors with one to one contact to all faculties, residents' doctors, intern doctors and staff of SV campus. The activity was carried out in two phases, first phase was carried in 2nd week of May and 2nd phase was carried out in 18/06/2020.

2) Along with this, we informed and asked to complete some Covid19 related courses which can be useful to them. They are online and on application of DIKSHA. The volunteer asked to Install Diksha app and inform them to complete 6 awareness courses of Covid19

- 1) Basics of COVID-19
- 2) COVID Awareness – Gujarati
- 3) Sample Collection, Packaging and Transport - Gujarati
- 4) Psychosocial Care - Gujarati
- 5) Pregnancy care and COVID 19- Gujarati
- 6) Quarantine and Isolation

The department is expecting that the staff will complete all 8 courses and after week we will collect the certificate form each staff.

Along with this one Self immunity check tool My HHC app was also asked to install. This is tool to self assess their immunity and health status.

Learning:

By conducting all the activities MBBS students and Intern doctors learn about the importance of prevention of Covid-19.

Suggested actions based on learning from the activity:

- 1) Awareness and prevention of COVID – 19.

ISR Activity Report

Name of the activity: Ayurvedic Kadha distribution in Sumandeep Vidhyapeeth Campus

Date of Activity: 06/06/2020

Back ground for the activity:

Since the emergence of novel Corona virus (SARS-CoV-2) infection in Wuhan, China in December 2019, it has now spread to over 205 countries. The ever-growing list of globally spread corona virus-19 disease (COVID19) patients has demonstrated the high transmission rate among human population. "It is important to maintain good immunity during this critical time. Our saints and vaidyas have prescribed several medicines to boost our immunity. Our AYUSH department is behind this initiative. We should mix the churna with water and drink it 3-4 times to enhance immunity. The whole world is going through the fear of this Corona Virus, the Research Councils under the Ministry of AYUSH, Government of India have issued advisory based on the Indian traditional medicine practices Ayurveda & Homeopathy.

ISR Activity Report

Name of the activity: Second round of distribution Homoeopathy medicine **Arsenic album 30** distribution in Dhiraj Hospital all staff and SBKS MI&RC for Prevention of Corona virus Infections

Date of Activity: 18/06/2020

Back ground for the activity:

The outbreak of a mysterious new Corona Virus is rapidly spreading. The whole world is going through the fear of this Corona Virus, the Research Councils under the Ministry of AYUSH, Government of India have issued advisory based on the Indian traditional medicine practices Ayurveda, Homeopathy and Unani.

The Group of Experts inter-alia has recommended that homoeopathy medicine Arsenicum album 30 could be taken as prophylactic medicine against Corona virus infections. It has recommended one dose of Arsenicum album 30, daily in empty stomach for three days. The dose should be repeated after one month by following the same schedule in case Coronavirus infections prevail in the community.

However, the Central Council for Research In Homeopathy (CCRH) of the Ministry of AYUSH is of the opinion that other preventive options should continue use along with this Arsenicum album.

Other preventive steps are

- Maintain personal hygiene.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your face during cough or sneeze and wash your hands after coughing or sneezing.
- Clean and disinfect frequently touched objects and surfaces.
- Preferably, use simple cloth mask while traveling or working in public places to avoid droplet transmission
- If you suspect Corona Viral infection, wear a mask and contact your nearest hospital immediately.

For additional Measures/Immunomodulatory drugs as per the Ayurvedic practices.

- Measures shall be taken to strengthen the immune system through a healthy diet and lifestyle practices.

Brief details of the activity:

1) We have distributed homoeopathy medicine Arsenicum album 30 with the help of MSW and Intern doctors with one to one contact to all faculties, residents' doctors, intern doctors and staff of SV campus. The activity was carried out in two phases, first phase was carried in 2nd week of May and 2nd phase was carried out in 18/06/2020.

2) Along with this, we informed and asked to complete some Covid19 related courses which can be useful to them. They are online and on application of DIKSHA. The volunteer asked to Install Diksha app and inform them to complete 6 awareness courses of Covid19

- 1) Basics of COVID-19
- 2) COVID Awareness – Gujarati
- 3) Sample Collection, Packaging and Transport - Gujarati
- 4) Psychosocial Care - Gujarati
- 5) Pregnancy care and COVID 19- Gujarati
- 6) Quarantine and Isolation

The department is expecting that the staff will complete all 8 courses and after week we will collect the certificate form each staff.

Along with this one Self immunity check tool My HHC app was also asked to install. This is tool to self assess their immunity and health status.

Learning:

By conducting all the activities MBBS students and Intern doctors learn about the importance of prevention of Covid-19.

Suggested actions based on learning from the activity:

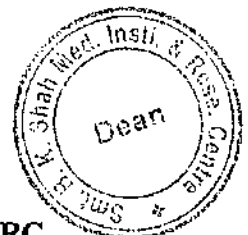

- 1) Awareness and prevention of COVID – 19.

ISR Activity Report

Name of the activity: Created awareness on hand washing and social distancing practices.

Date of Activity: 25/06/2020.

Back ground for the activity:

The outbreak of a mysterious new Corona Virus is rapidly spreading in country since March 2020. The whole world is going through the fear of this Corona Virus. As part of awareness and active participation, Department of Community Medicine SBKS MIRC, Sumandeep Vidyapeeth has distributed 600 masks to the poor villagers in Bahadarpur, Golagamdi, Ragunathpura, Lotiya, Akhatyarpura as part of COVID-19 awareness program. The department saving fund was used prepare mask. The required cloth was purchased from local market and trained local village women to prepare mask. She prepared mask in week time. The local made mask were distributed thus we joined movement of our honorable PM about vocal for local. The same mask were distributed in adopted villages poor people and also trained them how to make mask at home. Our intern's doctors and social worker are given knowledge to the people how to protect ourselves from COVID-19 infection.

Other preventive steps are

- Maintain personal hygiene.
- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.

Specific Objective: To explain causes of hypertension

Content:

=> In general major cause of hypertension are the following :-

- Hectic & stress filled life style
- unhealthy food habits.
- obesity.
- excessive consumption of liquors
- smoking
- over consumption of tea / coffee

- genetic disorder
- high intake of salt
- Emotional & Physical stress
- family history of hypertension
- over consumption of oily food

=> secondary causes

- sleep apnoea
- Drug induced
- chronic kidney disease
- Renovascular disease
- Thyroid disease
- Cushing syndrome.

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Specific Objective: Elucidate factors that can lead to accident.

- Content: 1) Balance & gait :- As we age, most of us lose some coordination, flexibility and balance, primarily through inactivity making it easier to fall.
- 2) Vision :- In the aging age, less light reaches the retina making contrasting edges, tripping hazards, & obstacles harder to see.
- 3) Medications :- Some prescription and even the counter medication can cause dizziness, dehydration OR can lead to fall.
- 4) Environment :- Poor lighting, slippery floors, unsafe stairs, obstacles, poor footwear, new environment.
- 5) Chronic conditions :- More than 80% of older adults have at least one chronic condition like diabetes, stroke OR arthritis often increase risk of falling.

A.V. Aids Used: Flash cards.

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Specific Objective: Explain prevention of accidents

Content:

- 1.) Make sure all rooms, pathways, and stairways are bright enough.
- 2.) Eliminate obstacles for easy navigation.
- 3.) Avoid slips on smooth or wet surfaces.
- 4.) Minimize flooring, loose carpet can lead

to trips.

- 5.) Use safety grab bars & other assistive devices.
- 6.) Prevent seniors from falling out of bed.
- 7.) Regularly review medication with a health professional.
- 8.) Get vision & hearing checkups atleast once in a year.
- 9.) Visit a doctor when experiencing new or recurring health issues.
- 10.) Keep morning & eat balanced diet.

A.V. Aids Used: Flash cards.

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

Specific Objective:

Content: *Conclusions :-*

Accidents couldn't be completely avoided, but its occurrence could be prevented.

For the elderly, effective prevention could much reduce the occurrence of accident,

thus alleviating the adverse effect on

their physiological and psychological

health and also enhancing their

self-care ability, leading to a healthy life.

Specific Objective:

- Explain the causes of anemia.

Content:

- Anemia caused by blood loss
- Decreased or faulty production of Red Blood cells.
- Increased destruction of Red Blood cells.

Common cause of Anemia

→ Nutritional Anemia :-

- Decreased iron intake, low dietary intake, poor iron and folic acid intake (iron less than 20 mg/day)
Folic less than 70 micrograms/day)

→ Decreased absorption :-

- Poor bio-availability of iron (3-4% only) in phytate fibre-rich Indian diet.

→ increased requirement :-

- Pregnancy, Lactating mother, children - 1 to 14 years

→ increased iron loss :-

- PPH, menstrual abnormalities, malaria, Hookworm.

NUTRITION PROGRAMME

DATE: 25/09/2019

TIME : 10 AM Onwards

NAME OF FACULTY INVOLVED: Ms. Ekta Patel, Asst. Professor, SNC

VENUE: Anganwadi, Madodhar Village, Waghodia,

Vadodara.

BENEFICIARIES: 25 Anganwadi children, Madodhar Village, Waghodia, Vadodara.

Total No. of Participants: 44 students

Introduction:

Good nutrition is an important part of leading a healthy lifestyle. Combined with physical activity, your diet can help you to reach and maintain a healthy weight, reduce your risk of chronic diseases (like heart disease and cancer), and promote your overall health.

4th year B.Sc Nursing students have organised Nutrition programme for under Five children at Anganwadi, Madodhar village under the guidance of Ms. Ekta Patel, Asst. Professor, SNC.

CENTRAL OBJECTIVES:

- To bring awareness on healthy & Balance Diet among under five children and Anganwadi workers.
- Demonstrate food recipe (with the use of Cheap & easily available Nutritive food) to Anganwadi workers & mothers of Under Five Children

Attested by

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

ACTIVITIES:

The Nutrition Program ensures that participating Children receive foods that are based on nutritional standards,

Final year nursing students have prepared diet with the use of cheap and easily available nutritive food stuff which is require to fulfil dietary requirements of under five children. Nutrition is essential part of growth and development of under five children. Providing sufficient and balance diet as per calorie requirement is a key step to prevent malnutrition among children of Under Five age group.

CONCLUSION:

Education and awareness regarding healthy & balance diet is essential among mothers of under five age group. By providing healthy diet to children sumandeep nursing college students have contributed in "MALNUTRITION FREE GUJARAT CAMPAIGN"

SUMANDEEP NURSING COLLEGE
COMMUNITY HEALTH NURSING
SCHOOL HEALTH PROGRAMME

DATE: 27.09.2019

TIME : 10 A:M Onwards

NAME OF FACULTY INVOLVED: Ms. Ekta Patel., Asst. Professor, SNC

VENUE: Government primary School, Madodhar, Waghodia, Vadodara.

BENEFICIARIES: 167 Children of Government primary School, Madodhar

Total No. Of Participants: 44- 4th Year B.Sc students

INTRODUCTION:

Children between the age of 5-17 years are school age children. About 30 percent of the population is comprised of this age group. Considering the importance of health services to be provided to school children 4th year B.sc (N) students have organised school health programme in Madodhar govt. Primary School Waghodia, Vadodara under the guidance of Ms. Ekta Patel., Asst. Professor, SNC .

OBJECTIVES:

To perform health screening of school children

To detect any abnormality at its early stage

To bring health awareness in school children

To encourage children to adapt healthy health habits.

Attested CTC

To Inculcate positive changes to improve positive health among school children

ACTIVITIES:

4th year B.Sc (N) Students have performed anthropometric measurement of school children and calculated BMI of children. They also have undertaken health screening of students. Total 167 school children were examined. 2 cases of delayed growth, 1 case of deafness, 1 case of tongue tie have been detected.

Poster Exhibition also organised on various topics such as

- Nutrition- balance diet, food to be avoided
- Functions & sources of macro & micro nutrients
- Good habits
- Dental hygiene
- Importance of sports
- Balance between curricular and extracurricular activities
- Importance of exercise, meditation

CONCLUSION:

School health services are essential part need to be look after to improve health status of school children. Abnormal cases were referred to near health centres. School teachers have been made aware about the findings of health screening. School teachers were also made aware about how to maintain records of health status of children. Exhibition also found effective to bring health related awareness in school children.

ORGANIZATION OF MAMTA CLINIC

DATE: 28/09/2019

TIME : 10 AM Onwards

NAME OF FACULTY INVOLVED: Ms. Ekta Patel, Asst. Professor, SNC

VENUE: Anganwadi, Madodhar Village, Waghodia, Vadodara.

BENEFICIARIES: 08 Antenatal Mothers & 4 Under Five Children, Madodhar Village, Waghodia, Vadodara.

Total No. of Participants: 44

Introduction:

The main objective is to reduce infant mortality as well as malnutrition among children through effective delivery of Health & Nutrition services as well as maternal health related activity on the same day and under the same roof.

4th year B.Sc Nursing students have organised MAMTA CLINIC at Anganwadi, Madodhar village under the guidance of Ms. Ekta Patel, Asst. Professor, SNC.

OBJECTIVES:

To undertake antenatal examination

To render antenatal care

To carry out under five assessment

To administer vaccination

To organize antenatal counselling session

To teach mothers about care of under five children

Attested CTC

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

ACTIVITIES:

Final year nursing students have organized mamta clinic where they have undertaken antenatal screening of mothers, monitor vital parameters of health, administered TT Vaccination, performed growth and development monitoring of under five children.

Health information imparted to mothers regarding maternal & child health. Encouraged mothers to take iron and folic acid supplements. Motivated mothers for institutional delivery. And also informed about various government schemes to improve maternal and child health.

CONCLUSION:

Maternal health is a vital component need to be address to improve overall health of country. By undertaking such activities we can reduce MMR and by providing health counselling making people capable to manage their health.

Under five- clinic

Name& Type of the activity : Under five- clinic.

Date of Activity : 27/9/2019

Back ground for the activity :

On 27/9/2019, the under-five clinic organized at Anganwadi of Goraj by the 2nd Year P.B. BSc Nursing students. The students were divided into the six committees. Sumandeep nursing college students have organized mass health education to bring awareness regarding under-five children care. The committees are as follows:

There were 18 children present in anganwadi and we invited other children with their mothers to participate in Under-five clinic

1. Registration committee:
2. Anthropometric measurement committee:
3. Vital signs committee:
4. Physical examination committee:
5. Nutrition committee:
6. Health education committee:

Activity carried out by : 2nd Year P.B. B Sc. Nursing students – 30 students

Activity Guided By : Mr. Adithya.S, Asst.Professor & HOD, Department of
Community Health Nursing, Sumandeep Nursing College

Participants : 31 Under-five children, 12 Mothers (43-total)

Brief details of the activity:

Under-five clinic was organized at Anganwadi of Goraj on 27/9/2019 by the 2nd Year P.B. BSc Nursing students. Priorly targeted audience were informed about the programme.

1. **Registration committee:** The registration committee was enrolled the name of the children and age of the children.
2. **Anthropometric measurement committee:** The anthropometric measurement committee was monitored and documented the height, weight, head circumference, chest circumference, mid upper arm circumference of the under five children.
3. **Vital signs committee:** The vital signs committee was monitored and documented the vital signs (Temperature, Pulse & Respiration) of the under five children.
4. **Physical examination committee:** The physical examination committee was assessed and examined head to toe examination of the under five children.

Attested by

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodra-391 760. (Gujarat)

5. **Nutrition committee:** The nutrition committee was given light refreshments to the children and child attenders.
6. **Health education committee:** The health education committee was given the health education to the mothers and attenders about child care, nutrition, good habits or bad habits, prevention of accidents.

Learning:

Mothers and attenders of under-five children and Anganwadi workers were actively participated in the programme. Majority of them benefitted and gained the knowledge proper health education on bad habits and good habits, personal hygiene, nutrition, prevention of accident.

Suggested actions based on learning from the activity:

It is been found that the Mothers and attenders of under-five children are having poor knowledge regarding bad habits and good habits, personal hygiene, nutrition, prevention of accident. Numerous educative programs need to be organized to improve their knowledge and attitude

**ROLE PLAY & POSTER EXHIBITION ON IMPORTANCE OF CLEANLINESS AT
MADODHAR VILLAGE**

DATE: 30/09/2019

TIME : 10 AM Onwards

NAME OF FACULTY INVOLVED: Ms. Ekta Patel, Asst. Professor, SNC

VENUE: Government Primary school, Madodhar Village, Waghodia,
Vadodara.

BENEFICIARIES: 146 Students of Government Primary school & 20 village people, Madodhar Village, Waghodia, Vadodara.

Total No. of Participants: 42 students

Introduction:

"Cleanliness is next to Godliness."

With the help of cleanliness, we can keep our physical and mental health clean, which will make us feel good. Cleanliness gives rise to a good character by keeping body, mind, and soul clean and peaceful. Maintaining cleanliness is the essential part of healthy living because it is the cleanliness only which helps to improve our personality by keeping clean externally and internally.

4th year B.Sc Nursing students have organised Mass Awareness campaign to bring awareness regarding environmental sanitation and cleanliness for students of primary school as well as benefits extended for community people residing at Madodhar village under the guidance of Ms. Ekta Patel, Asst. Professor, SNC.

Attested CTC

Vice-Chancellor

Sumandeep Vidyapeeth

An Institution Deemed to be University

Vill. Piparia, Taluka: Waghodia.

Dist. Vadodara-391 760. (Gujarat)

CENTRAL OBJECTIVE:

To bring awareness regarding importance of cleanliness and sensitise people to maintain cleanliness and environmental sanitation.

ACTIVITIES:

It is everybody's responsibility and one should keep themselves and their surroundings clean and hygienic. It also brings good and positive thoughts in the mind which slows down the occurrence of diseases.

Final year nursing students have performed role play with the theme "swachhta hi seva". The beneficiaries were school children and community people of Madodhar village. They also prepared posters on importance of cleanliness and environmental sanitation. Students have explained the advantages as well as consequences arise due to lack of cleanliness and poor sanitation.

CONCLUSION:

Its responsibility of the entire citizens to keep their surrounding clean. School children and the community people were encouraged to maintain their surrounding clean. Thus the students of sumandeep nursing college have initiated steps towards- "Clean India, Healthy India"

AWARENESS RALLY & SHRAMDAAN- "SWACHHTA HI SEVA"

DATE: 01/10/2019

TIME : 10 AM Onwards

NAME OF FACULTY INVOLVED: Ms. Ekta Patel, Asst. Professor , SNC

VENUE: Madodhar Village, Waghodia, Vadodara.

BENEFICIARIES: 450 people of Madodhar Village, Waghodia, Vadodara.

Total No. of Participants: 43 students

Introduction:

"Cleanliness is next to Godliness."

It is the mantra of Mahatma Gandhiji, Father of Nation. He demonstrated, propagated and insisted for individual and community cleanliness throughout his life. Following his footprints, Swachhbharat Mission campaign achieved encouraging results. This vision will be translated into action by bringing in community participation for clean toilets and integrated waste management to make Gujarat open defecation free, zero waste, dust free, plastic free and green.

4th year B.Sc Nursing students have organised rally to bring awareness to keep surrounding clean among community people residing at Madodhar village under the guidance of Ms. Ekta Patel, Asst. Professor, SNC .

CENTRAL OBJECTIVE:

To contribute in swachhbharatabhiyan activity & undertake cleanliness drive

ACTIVITIES:

It is everybody's responsibility and one should keep themselves and their surroundings clean and hygienic. It also brings good and positive thoughts in the mind which slows down the occurrence of diseases.

Final year nursing students have organised rally to promote swachh bharat mission. Mass awareness created with Various slogan : " ham sb ka aek nara- saaf sutra des hamara, sathi re hath batana- gandki ko he dur bhagana, apni mitti apna des- swachh bharat swasth bharat...etc.

Shramdan activites also been carried out at various streets of madodhar village. Students have encouraged community people to join in swachhta activity. They have participated in shramdan activity and shown their willingness-and-interest-to-keep-surrounding clean.

CONCLUSION:

The Swachh Bharat Abhiyan is the most significant cleanliness campaign by the Government of India. Its responsibility of the entire citizens to keep their surrounding clean. community people were encouraged to maintain their surrounding clean. Thus the students of sumandeep nursing college have initiated one steps towards- cleanliness"

OBSERVATION OF INTERNATIONAL GIRL CHILD DAY

DATE: 11/10/2019

TIME : 10 AM Onwards

NAME OF FACULTY INVOLVED: Ms.Ekta Patel, Asst.Professor , SNC

VENUE: Anganwadi, Sangadol Village, Waghodia, Vadodara.

BENEFICIARIES: 50 Village People, Waghodia, Vadodara.

Total No. of Participants: 39

Introduction:

The International Day of the Girl Child is celebrated annually on 11th October. The main aims of the day are to promote girl's empowerment and fulfilment of their human rights while also highlighting the challenges that girls all over the world face. 4th year B.Sc Nursing students have celebrated international girl child day at village under the guidance of Ms. Ekta Patel, Asst.Professor, SNC .

OBJECTIVES:

To bring awareness regarding importance of girls in the welfare of country

To encourage society to educate girls

To motivate society to up bring growth of girl child

ACTIVITIES:

Launched in 2012 by the United Nations general assembly, amongst the issues focused on by the **International Day of the Girl Child** are education, equality, child marriage, access to services regarding puberty and sexual health and addressing issues around gender violence. Final year nursing students

Attested CTC

CHILDREN'S DAY

Name & Type of The Activity:

Observing Children's day

Date of Activity:

14.11.2019

Back Ground For The Activity:

Children are like buds in a garden and should be carefully and lovingly nurtured, as they are the future of the nation and the citizen of tomorrow. There can be no keener revelation of a society's soul than the way in which it treats its children. Sumandeep nursing college students have celebrated children's day at gutal village anganwadi.

Activity Carried Out By:

Students.5 students of Fourth Year B.sc Nursing& the students of student council, SNC.(08)
(Total 13 students).

Activity Guided By:

Faculty: 1. Ms. Ekta Patel
2. Mr. AdilKadiwala

Participants:

Children of Anganwadi, Gotal village (45 children)

Brief Details of The Activity:

The students of SNC reached to anganwadiGotal village and have welcomedchildren of anganwadi. They met with the supervisor of anganwadi. The formal programme was started in which the block level supervisor- Shmt. DaxabenTrivedi was remained present. Formal welcome and prayer was done. Children were engaged in prayer. After that various physical activity was carried out. Children were taught and demonstrated various exercise along with its benefits explanation. Various recreational activities was offered to children. Various play materials was also given to students. Such as building blocks, bat-ball. Drawing competition was also organized for children. The children who have made good drawing was given prize. Children were explained importance of sports, exercise, healthy food and the healthy life style. They were also entertained by poem singing and story telling. At last students of SNC have distributed stationary set, biscuits packets to all children of anganwadi.

MASS HEALTH EDUCATION

Name & Type of The Activity:

Mass Health Education on Maternal & Child Health

Date of Activity:

23.10.2019

Back Ground For The Activity:

Students of Final Year B.Sc. Nursing conducted the Mass Health Education on the date of 23rd October 2019 on maternal and child health. There is a high morbidity and mortality in terms with maternal, neonatal, infant & under five children. There are various causes underlying the present threat. The government of India has launched various schemes to address this ill evil and bring healthy maternal and child outcome. Sumnadeep nursing college students have organized mass health education to bring awareness regarding maternal and child health.

Activity Carried Out By:

Students. 39 Fourth Year B.sc Nursing Students.

Activity Guided By:

Faculty: 1. Ms. Ekta Patel

2. Mr. Adil Kadiwala

Participants:

Children, adolescent, Mothers (around 35 beneficiaries.)

Brief Details of The Activity:

MASS HEALTH EDUCATION: Mass health education was given to the people residing in Sangadol village on various components of maternal & child health. Prior intimation was given to The targeted audience were informed about the programme . 4th year b.sc (N) Students have arranged the venue and prepared posters, flashcards, pamphlets pertaining to MCH care. Education was given in local language. Various topics were covered such as antenatal care, postnatal care, breast feeding, importance of institutional delivery, reproductive health, prevention of STD & RTI, care of infant 7 under five. mothers were informed about recent govermental schemes launched to improve mother and children. They were guided how to take benefits of these schemes.

MASS HEALTH EDUCATION

Name & Type of the Activity	: Mass Health Education on Environmental Sanitation
Date of Activity	: 11.10.2019
Background for The Activity	: Government Primary and Higher Secondary School, Goraj.
Activity Carried Out by	: 30 IInd Year P.B.B.Sc Nursing students.
Activity Guided by	: Mr. Adithya.S, Asst.Professor & HOD, Department of Community Health Nursing, Sumandeep Nursing College.
Participants	: Students of Primary and Higher Secondary School, Goraj- (180)

Brief details of the activity:-

On 01/10/2019, a educative event organized in the Government Primary and Higher Secondary School of Goraj. This event was held in the prayer hall of school. The chief guest was Headmaster of Government Primary and Higher Secondary School of Goraj. There was a welcome speech followed by melodious Saraswativandana. Oriented the students regarding activities and performed role play regarding awareness of environmental sanitation and cleanliness, poster presentation about nutrition, personal hygiene, good and bad habits, accident prevention. It was followed by formal votes of thanks. The oral feedback was taken from audience. The school children felt that the program was informative for all. The Mass Health Education Programme on Environmental Sanitation came to an end with light refreshments

Learning:-

There are 30 students are participated in Mass health education and Role play. The students divided into the five committees to perform role play and to give health education .The activities were performed under the guidance of Mr.Adithya.S, Asst.Professor & HOD, Department of Community Health Nursing, Sumandeep Nursing College

Teachers and students presence over there for the role play on environmental sanitation at Government Primary and Higher Secondary School, Goraj. Students gained knowledge and awareness on bad habits & good habits, personal hygiene, nutrition, prevention of accident,

Name & Type of the activity:

Mass health education

Date of Activity:

11.01.2020

Back ground for the activity:

Raising public awareness involves creating a specific messaging campaign about a particular issue. Awareness rising can be an important part of developing community support for changes. The word "health" refers to a state of complete emotional and physical well-being. Healthcare exists to help people maintain this optimal state of health. Good health is central to handling stress and living a long and active life. This means that health is a resource to support an individual's function in wider society. A healthful lifestyle provides the means to lead a full life. To generate mass awareness on various healthy practices and habits Community health nursing Department, Sumandeep Nursing College has organized mass health education Programme on 11.01.2019 under the guidance of Mr. Adil, Asst. Professor & Ms. Arti, Tutor, SNC at Govt. Primary School, Thuvavi Village, Waghodia, Vadodara.

Activity carried out by:

Students. 28 1st Year ANM students & 4 S.Y. M.sc (N) Students : 32 Student

Activity Guided by:

Faculty: 1. Mr. Adil, Asst. Professor, SNC

2. Ms. Arti, Tutor. SNC

Attested CTC

An Institution Deemed to be University
Vill. Piparia, Taluka: Waghodia.
Dist. Vadodara-391 760. (Gujarat)

Govt. Primary School, Thuvavi Village, Waghodia,

Central Objective:

To bring awareness regarding importance of healthy life practices and to inculcate healthy behavior among school children.

Brief details of the activity:

MASS HEALTH EDUCATION:

Healthy habits help prevent certain health conditions, such as heart disease, stroke, and high blood pressure. Regular physical activity and proper diet can also prevent a wide range of health problems, including: metabolic syndrome, diabetes. Moulding student's behaviour and inculcating healthy practice among children is of great value.

Department of Community Health Nursing, Sumandeep Nursing College has taken prior permission from the Principal, Govt. Primary school, Thuvavi Village, Waghodia, Vadodara on 7/01/2019 to organise mass health education programme on health Habits. Students of F.Y.ANM along with the faculties of SNC reached to venue at 10:00 A.M. gathered the children at one place. Carried out Introductory session followed by informal talk with the children. After Prayer Ms. Himani Patel, S.Y.M.Sc (N) Student has outlined the role of good and healthy habits to prevent diseases. Innovation in health education is having prime value. By Adopting an interesting & creative method to impart health related awareness is an effective way to make children aware on health issues. By keeping this view S.Y.ANM students have distributed kites with health message to children of Govt. primary school, thuvavi Village.

Learning:

The beneficiaries got knowledge regarding importance of healthy practices and life style to prevent disease, to promote and restore health.

Subject- Conducting awareness Camp in Waghodia village "Correct way of doing daily living activities and it's long term benefits"

Dear Sir,

This is to inform you that College of Physiotherapy is planning to conduct a physiotherapy camp at Waghodia on 10th November, 2019 (Sunday) between 10.00 am to 1.00 pm. We request you to grant approval for the following things:

- Transport facility to accommodate the faculty and student, approx 20-25 persons, to and fro from the campus.
- Arrangement of safe drinking water, tea, breakfast from the university around 11.30 am.
- The printing material for local circulation, banner, feedback etc.

The expected cost of the camp should not exceed Rs. 4000/-

There is plan to conduct these camps periodically in community and assess the impact of it on the public.

Awareness Camp

The awareness camp "Correct way of doing daily living activities and it's long term benefits" through a video was organized on 10th November, 2019 by college of physiotherapy, SVDU at Prathmik Kumarshala, Waghodia from 10.00 am to 1.00 pm.

Bus was arranged to go to the camp venue from the college by 9.30A.M. and reached at camp venue at 10:00 A.M. Camp team had 209 members including 05 faculties & 204 PG, UG students and interns. Camp was started. We had a small inaugural function at 10 o'clock in form of a prayer. The camp was organized to spread the awareness about the correct way of doing daily living activities and its long-term benefits, through a video. The objective of the camp was to make the public aware about the body posture and use of appropriate tools while doing daily routine activities to maintain and to improve the health of people.

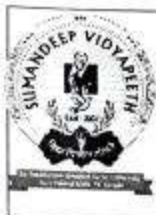

There were students at the entrance to guide the people interested and these were first registered and then were made to be comfortably seated in the hall. We started the first session at 10.15 am and repeated playing of the video about four times. Total 71 people came in the camp and took benefit of it. After watching the video, viewers were asked to fill a feedback form.

The majority of the patients were very happy and said that it was first time experience that they got the knowledge about the correct and wrong body position during daily living activities by a video which is very useful in daily life. Some of them advised to organize such camps at least once per month.

Report on World Children's Day celebration-2019

Name of the activity: World Children's Day - 2019

Date of Activity: 14th November, 2019

Back ground for the activity:

Department of pharmacy, Sumandeep Vidyapeeth-Dept. of Pharmacy organized health awareness program on occasion of Children's Day. These activities were carried out by students and Staff of Department of Pharmacy.

The students of Pharmacy College had prepared handmade posters for general health awareness regarding Minor Ailments (i.e. Cold, Cough, Heat Stroke), Administration of different formulations, Vaccine Immunization etc. They also explained the Do's and Don'ts of the above mentioned conditions. We also gave knowledge to villagers about the basic health awareness. The information was given to villagers in their own Gujarati and Hindi Language for their ease of understanding. Student had a very good exposure to how to deal with minor query or the questions of the patients. Villagers had very good feedback that they came to know many more new things.

Activity carried out by: 04 Faculty members and 200 students have actively participated from Department of Pharmacy.

Activity Guided by: 04 faculty members have guided students from Department of Pharmacy.

Participants:

From Community Side: i.e. women, school going children, adolescents etc. in village Banaj.

Brief details of the activity:

The students of Pharmacy College had prepared handmade posters for general health awareness regarding Minor Ailments (i.e. Cold, Cough, Heat Stroke), Administration of different formulations, Immunization etc. They also explained the Do's and Don'ts of the above mentioned conditions.

Learning:

Student had a very good exposure to how to deal with minor query or the questions of the patients. Villagers had very good feedback that they came to know many more new things.

Report on World Diabetes Day-2019

Name of the activity: World Diabetes Day - 2019

Date of Activity: 14th November, 2019.

Venue: Village: Banaj, District: Vadodara.

Back ground for the activity:

Department of pharmacy, Sumandeep Vidyapeeth-Dept. of Pharmacy organized health awareness program on occasion of World Diabetes Day. These activities were carried out by students and Staff of Department of Pharmacy.

The students of Pharmacy College had prepared handmade posters for general health awareness regarding Diet, Overview and Complication of Diabetes along with Rational Use of Antibiotics and different Government Scheme for the Pregnant Woman and Female Child (i.e. MAA Yojana etc.) They also explained the Do's and Don'ts in the above mentioned conditions. We also gave knowledge to villagers about the basic health awareness. The information was given to villagers in the own Gujarati and Hindi Language for their ease of understanding. Student had a very good exposure to how to deal with minor query or the questions of the patients. Villagers had very good feedback that they came to know many more new things.

Activity carried out by: 04 Faculty members and 166 students have actively participated from Department of Pharmacy.

Activity Guided by: 04 faculty members have guided students from Department of Pharmacy

Participants:

From Community Side: i.e. women, school going children, adolescents etc. in village Banaj.

Brief details of the activity:

The students of Pharmacy College had prepared handmade posters for general health awareness regarding Diet, Overview and Complication of Diabetes along with Rational Use of Antibiotics and different Government Scheme for the Pregnant Woman and Female Child (i.e. MAA Yojana etc.) They also explained the Do's and Don'ts in the above mentioned conditions.

Learning:

Student had a very good exposure to how to deal with minor query or the questions of the patients. Villagers had very good feedback that they came to know many more new things.

Report on 58th National Pharmacy week celebration 2019

Name of the activity: 58th National Pharmacy week celebration 2019.

Date of Activity: 18th-20th November 2019.

Back ground for the activity: 58th National Pharmacy week 2019 celebration was "Pharmacist: Your Medication Counsellor" was theme of year 2019.

To create awareness about the pharmacist role as a medication counsellor.

To create awareness amongst the public, other healthcare providers and the Authorities.

To promote the public health concept and the benefits of pharmacists and pharmacy professional in public health.

To raise public awareness about the medication errors and the need for the regular preventive health care visit.

To raise public awareness about the antibiotics and the other antimicrobial drugs to prevent or reduce the emergence of Antimicrobial resistance

Activity carried out by: 17 Faculties and 238 Student of the Department of Pharmacy, Sumandeep Vidyapeeth.

Activity Guided by: 17 Faculties of Department of Pharmacy, SVDU.

Participants: Students from Department of Pharmacy, SVDU and community people of village of Banaj.

Brief details of the activity:

58th National Pharmacy week 2019 was celebrated By Department of Pharmacy, SVDU on the Theme "Pharmacist: Your Medication Counsellor" from 18th-20th November 2019. The Programme was inaugurated in the presence of the Chief Guest Dr. Ravindra H N Principal of Sumandeep Nursing College, SVDU on 18th November 2019 at Department of Pharmacy, SVDU. Followed by Patient Counselling video making and Essay Competition in which student actively participated and proposed their view how pharmacist can help the society as the healthcare professional. They also presented the video clip elucidating the importance of pharmacists in patient counselling. On Second day i.e. 19th November 2019, students prepared the Patient Information Leaflets which were most appreciated and was decided to print it for the Drug information center of the department.

In Comic poster making competition students presented their creativity in a wonderful manner forecasting the Pharmacist importance in Healthcare sector.

Community awareness programme also was celebrate at Banaj village.

Learning: Pharmacists are an integral part of the health care team and are among the most trusted and accessible health care professionals. This accessibility allows them to perform more patient care activities, including counseling, medication management, and preventive care screenings. Therefore, significant impact on patient satisfaction and quality of care can be helped through regular interaction with patients.

Dist. Vadodra-391 760. (Gujarat)

Suggested actions based on learning from the activity: Pharmacist efforts will have significant impact on patient satisfaction and quality of care through counselling with patients and medication management. They are also in a unique position to identify potential drug interactions early on, and to educate patients on the proper use of medication. Hence, addition of a pharmacist in a collaborative, team-based setting can improve performance against quality indicators and national health goals.

Report on World AIDS Day-2019

Name of the activity: World AIDS Day-2019.

Date of Activity: 3rd December 2019.

Note: World AIDS Day supposed to be celebrated on 1st December but due to holiday it was celebrated on 3rd December 2019.

Venue: Dhiraj General Hospital campus, Sumandeep Vidyapeeth.

Back ground for the activity:

Department of Pharmacy in collaboration with ISPOR Student Chapter Sumandeep Vidyapeeth Deemed University organized basic health awareness camp on HIV/ AIDS. Patients and care takers were informed about the epidemics, signs & symptoms, prevention and treatment options of HIV/ AIDS. This activity was carried out by students and faculties of Department of Pharmacy along with volunteers of ISPOR student chapter.

The students of Pharmacy College had prepared leaflets (in Gujarati and Hindi languages) on general information about HIV/ AIDS and were distributed among community people. Students had a very good experience about how to interact with patients and other community people. We got a very good response from patients and care takers as they were very satisfied with our input.

Activity carried out by: 03 faculty member and 171 students actively participated from Department of Pharmacy.

Activity Guided by: 03 faculty members from department of pharmacy.

Participants:

Patients and care takers visiting Dhiraj General Hospital.

Brief details of the activity:

The students of Pharmacy College had prepared leaflets (in Gujarati and Hindi languages) on general information about HIV/ AIDS and spread the awareness about the epidemiology, signs & symptoms, spread, prevention and treatment of HIV/ AIDS among Patients and care takers visiting Dhiraj General Hospital.

Learning: Students had a very good experience about how to interact with patients and community people and we got a very good response from them as they were very satisfied with our input.

Suggested actions based on learning from the activity: These type of activities should be carried out at regular intervals for the benefit of the society.

Report on Swachh Bharat Abhiyan-2019

Name of the activity: Swachh Bharat Abhiyan-2019.

Date of Activity: 3rd September 2019.

Venue: Department of Pharmacy

Back ground for the activity:

Department of pharmacy, Sumandeep Vidyapeeth organized Swachh Bharat Abhiyan-2019 As a part of clean India mission.

Activity carried out by: 01 faculty member and 200 students from department of pharmacy

Activity Guided by: 01 faculty member have actively guided to students of department of pharmacy.

Participants: Students from Department of Pharmacy.

Brief details of the activity:

Prime Minister Shri Narendra Modi Launched the ambitious 'Swachh Bharat Abhiyan' (Clean India Mission) 2nd October 2014. The 'Abhiyan' was launched on the occasion of Mahatma Gandhi's 145th birth anniversary. Sumandeep University and various department of Sumandeep University also take part and Started small initiative towards the 'Swachh Bharat Abhiyan'. The program was held in and around **Department of Pharmacy, SVDU** on **3rd September 2019** at 11:00 Morning. The main objective of the Swachh Bharat Activity is to sensitize students about Cleanliness and Swachhata around us like around our house, Society, area where we lived, in our village, city. Students of Department of Pharmacy and Student Council Member started the Cleaning in department and around the Campus and near the Garden area. With the student's perception regarding Cleanliness. The Cleaning activity cover several area in and around college campus. The activity was very interesting and students feels very happy by taking part in such good social Activity. The program was ended with vote of thanks by Mr. Sunil Kardani.

Learning: Students had a very good experience about swachhata and cleanliness.

Suggested actions based on learning from the activity: These type of activities should be carried out at regular intervals for the benefit of the society.

Report on World Cancer Day Celebration -2020

Name of the activity: World Cancer Day Celebration-2020

Date of Activity: 4th February 2020.

Venue: Mastupura and Ropa Village, Vadodara

Back ground for the activity:

Department of pharmacy, Sumandeep Vidyapeeth organized basic health awareness rally related to cancer disease at village 'Ropa and Mastupura' on the occasion of World Cancer Day celebration-2020. These activities were carried out by students and staff of Department of Pharmacy. The Basic objective of this activities is to aware the villagers about cancer disease.

The students of Pharmacy College had prepared posters, leaflets and pamphlets for general health awareness related to cancer disease. They also explained about cancer disease, type of cancer, complications, Treatment, Side effect of medicine diet chart etc. This information was provided to the villagers in local language - Gujarati and Hindi for their better understanding. Students had a very good experience about how to interact with people and we got a very good response from villagers as they were very satisfied with our input.

Activity carried out by: 06 faculty member and 210 students from department of pharmacy

Activity Guided by: 06 faculty members have actively guided to students of department of pharmacy

Participants:

From Community Side: Villagers from Ropa and Mastupura.

Brief details of the activity:

The students of Pharmacy College had prepared posters, leaflets and pamphlets for health tips of cancer disease. We explained about disease, Treatment, complications, diet chart etc. We also gave knowledge to villagers about rational use of medicine.

Learning: Students had a very good experience about how to interact with people and we got a very good response from villagers as they were very satisfied with our input.

Suggested actions based on learning from the activity: These type of activities should be carried out at regular intervals for the benefit of the society.

59th National Pharmacy Week Celebration -2020

Name of the activity: 59th National Pharmacy week 2020 (Online)

Date of Activity: 2nd – 3rd December, 2020

Venue: Department of Pharmacy, Sumandeep Vidyapeeth Deemed to be University, Vadodara.

Back ground for the activity: 59th National Pharmacy week 2020 celebration was theme “Pharmacists: Frontline Health Professionals”

- To create awareness about the pharmacist role as a medication counsellor.
- To create awareness amongst the public, other healthcare providers and the authorities
- To promote the public health concept and the benefits of pharmacists and pharmacy professional in public health.
- To raise public awareness about pharmacist as frontline health professional during COVID-19 pandemic.

Activity carried out by: 12 Faculties and 95 Student of the Department of Pharmacy, Sumandeep Vidyapeeth Deemed to be University.

Activity Guided by: Faculties of Department of Pharmacy, SVDU

Participants: Students from Department of Pharmacy, SVDU.

Brief details of the activity:

59th National Pharmacy week 2020 was celebrated by Department of Pharmacy, SVDU on the theme “Pharmacists: Frontline Health Professionals” from 2nd – 3rd December, 2020 on virtual platform. The Programme was inaugurated in the presence of the Chief Guest Dr. D M Patel, Associate Professor at Graduate School of Pharmacy, Ahmedabad and Head, Establishment section of GTU on 2nd December, 2020. Followed by the elocution competition and essay competition in which student actively participated and proposed their view on how pharmacist can help the society as the healthcare professional. On Second day i.e., 3rd December, 2020, students prepared the patient information leaflet COVID-19, gastroenteritis, tuberculosis, malaria, dengue and chikungunya. In e-poster making competition students presented their creativity in a wonderful manner for casting the Pharmacist importance in Healthcare sector.

Learning: Pharmacists are an integral part of the health care team and are among the most trusted and accessible health care professionals. This accessibility allows them to perform more patient care activities, including counseling, medication management, and preventive care screenings. Therefore, significant impact on patient satisfaction and quality of care can be helped through regular interaction with patients.

Suggested actions based on learning from the activity: Pharmacist efforts will have significant impact on patient satisfaction and quality of care through counselling with patients and medication management. They are also in a unique position to identify potential drug interactions early on, and to educate patients on the proper use of medication. Hence, addition of a pharmacist in a collaborative, team-based setting can improve performance against quality indicators and national health goals.

Detailed overview on types of burns by Deep Patel

Management of Burns

The burns patient has the same priorities as all other trauma patients.

- Assess:
 - Airway
 - Breathing: beware of inhalation
 - Circulation: fluid replacement -
 - Disability: compartment syndrome
 - Exposure: percentage area of burn.

BURN MANAGEMENT

The burns patient has the same priorities as all other trauma patients

Assess:	Considerations:
AIRWAY	Rapid airway compromise
BREATHING	Beware of inhalational injury
CIRCULATION	Fluid replacement
DISABILITY	Compartment Syndrome
EXPOSURE	Percentage area of burn

Burn severity is determined by:

- Surface area
- Depth
- Other considerations

Essential Management Points

- Stop the burning
- ABCDE
- Rule of 10s
- Obtain good IV access
- Early fluid replacement

Morbidity and mortality rises with increasing burned surface area and the patient's age. Even small burns may be fatal in elderly people.

Burns greater than 15% surface area (adult), greater than 10% (child) or any burn occurring in the extremes of age are considered serious

Prevention

Specific recommendations/precautions to prevent burn injuries by individuals, communities -

Primary prevention:

- Enclose fires and limit the height of open flames in domestic environments.

Cooking on floor should be avoided.

- Watch the child constantly especially around gas burners, stoves, ovens, microwaves, heaters and other appliances.

Subject: Application for Celebration of World Diabetes Day and National Children's Day.

Respected Sir,

We are going to celebrate World Diabetes Day and National Children's Day on 11th November, 2020 instead of pre scheduled 14th November, 2020. Because, on 14th November, 2020 we are having leave for Diwali. Thus we are celebrating it before date.

Sr. No.	Days	Timing	Place for Program Conduction
1.	World Diabetes Day	9:30 am – 10:30 am	Awareness Program At Patient Counselling Center, Besides Dhiraj Hospital
2.	National Children's Day	10:30 am – 12:00 pm	Awareness regarding "Burns" and it's Management on Google Meet

Kindly permit us for the same.

We are expecting your positive response.

Thank you.

Participants:

From Community Side: Diabetic patients from Dhiraj General Hospital, Vadodara.

Brief details of the activity:

Leaflets in layman languages (e.g., Gujarati, Hindi) were prepared and was distributed in diabetic patients. Leaflets were used to counsel the patient for their life-style modification. They were made aware for importance of adherence for treatment. They were also counselled for the consequences of the diabetes.

Learning:

Student had a very good exposure to how to deal counselling or the questions of the patients. Patients were satisfied with the counselling of students.

To,
Registrar,
Sumandeep Vidyapeeth Deemed to be University,
Vadodara, Gujarat.

Subject: Application for Celebration of World Diabetes Day and National Children's Day.

Respected Sir,

We are going to celebrate World Diabetes Day and National Children's Day on 11th November, 2020 instead of pre scheduled 14th November, 2020. Because, on 14th November, 2020 we are having leave for Diwali. Thus we are celebrating it before date.

Sr. No.	Days	Timing	Place for Program Conduction
1.	World Diabetes Day	9:30 am – 10:30 am	Awareness Program At Patient Counselling Center, Besides Dhiraj Hospital
2.	National Children's Day	10:30 am – 12:00 pm	Awareness regarding "Burns" and it's Management on Google Meet

Kindly permit us for the same.

We are expecting your positive response.

Thank you.

From,

Dr. A. K. Seth

2141 लोगों का निशुल्क स्वास्थ्य परीक्षण

वामनिया। नईदुनिया न्यूज

रतलाम रोड स्थित शासकीय कन्या विद्यालय प्रांगण में रविवार को जैन सोशल ग्रुप 'वामनिया यूनिट' के तत्वावधान में धीरज हॉस्पिटल वडोदरा के सहयोग से निशुल्क सर्व रोग जांच शिविर लगाया गया। इसमें आवश्यकतानुसार निशुल्क दवाइयों का भी वितरण भी किया गया। शिविर में नगर सहित क्षेत्र से सैकड़ों लोग पहुंचे और स्वास्थ्य लाभ लिया। इस दौरान 2 हजार 141 लोगों का स्वास्थ्य परीक्षण किया गया।

जैन सोशल ग्रुप 'वामनिया यूनिट' के अध्यक्ष सचिन मांडौत (कटारिया) ने बताया कि ग्रुप द्वारा सामाजिक क्षेत्र में किए जा रहे सेवाकार्यों के तहत यह आयोजन रखा गया। इसमें लगभग 50 चिकित्सकों ने सेवाएं दीं। शिविर में वामनिया सहित खवासा, पेटलावद, रायपुरिया, बरवड़, अमरगढ़, रामपुरिया, दुलाखेडी, सारंगी, बरवेट, छाथन, गेहंडी, देहंडी, धुमडिया, सातेर, रामपुरिया आदि कई गांवों से लोग पहुंचे। ग्रुप के सभी सदस्यों ने अलग-अलग व्यवस्थाएं संपाली। मरीजों के लिए पंजीयन, ओपीडी और

वामनिया में जैन सोशल ग्रुप 'वामनिया यूनिट' के निशुल्क सर्व रोग जांच शिविर में भारी भीड़ उमड़ी। ● नईदुनिया

वडोदरा के 50 डॉक्टरों की टीम और ग्रुप के सदस्यों ने पूरे समय सेवाएं दीं। ● नईदुनिया

दवाइयों के लिए अलग-अलग कक्ष बनाए गए थे। भीड़ इतनी ज्यादा थी कि लोगों को टेबलों पर बैठकर और कतार में लगकर उपचार के लिए अपनी बारी का इंतजार करना पड़ा। शिविर के सफल आयोजन में जैन सोशल ग्रुप 'वामनिया यूनिट' के सभी सदस्यों सहित सुभाष

स्काउट दल के स्काउटर ओमप्रकाश त्रिपाठी और कन्या विद्यालय व बालक विद्यालय के स्काउट-गाइड, रेडक्रॉस के विद्यार्थी व कन्या विद्यालय के प्राचार्य आरके यादव व स्टाफ का प्रमुख रूप से योगदान रहा। मानव सेवा की दिशा में ग्रुप द्वारा आयोजित किए गए इस शिविर की

खास बातें

- 2141 लोगों का हुआ स्वास्थ्य परीक्षण
- 70 मरीजों की हुई ईसीजी जांच
- 55 मरीजों की हुई शुगर चेकअप
- 70 मरीजों का ऑडियोमेट्री मशीन चेकअप
- 351 मरीजों को बस से उपचार के लिए वडोदरा भेजा जाएगा

क्षेत्रभर में सराहना की जा रही है।

इन बीमारियों का हुआ उपचार

विद्यालय के लगभग 20 कक्षों में हृदय रोग, मानसिक रोग, स्त्री एवं प्रसूति रोग, पेट के रोग, मेडिसिन, ब्लडप्रेसर, आंखों के रोग, शिशु रोग, छाती के रोग, दंत रोग, फिजियोथैरेपी, ईसीजी, घुटनों का दर्द, चर्म रोग, नाक, कान, गला रोग, कैंसर रोग, शुगर, स्पीच थैरेपी के साथ ही कान की सुनने की जांच, तुतलाना, अटकना और गूंगापन की जांच कर उपचार किया गया। साथ ही नशे की लत छुड़वाने के लिए परीक्षण कर परेशानी का निदान भी किया गया।
