UNIVERSITY SONG

हम सुमनदीप के ज्योतिर्धर हैं, ज्ञान दीप की ज्योत जली है ।

नव सर्जन, नव विचार धारा, लेकर बहती लहर चली है ...

हम सुमनदीप के ज्योतिर्धर हैं, ज्ञान दीप की ज्योत जली है ।

मंत्र मिला है मानवता का, स्नेह सभर ममता का ,

सेवाव्रत संदेश मिला है , सबके प्रति करुणा का,

ज्ञान मिला है शिक्षा पाई, सेवा की एक लहर चली है,

हम सुमनदीप के ज्योतिर्धर हैं, ज्ञान दीप की ज्योत जली है ।

कर्ज नहीं भूलेगा इसका, जिसने विद्या दान दिया है,

शीश झुका कर वंदन इसको, जिसने गौरव का सम्मान दिया है,

सौरभ देखो विद्यापीठ की, गांव गांव बात चली है,

हम सुमनदीप के ज्योतिर्धर हैं, ज्ञान दीप की ज्योत जली है ।

c. **Best practices/innovations in academics, research & Management with their impact.**

Best Practices/Innovations implemented at Institute level

1. **Evidence based education system (EBES)**– EBM course work has been incorporated in curriculum and one project is also given to the students.
 - a. **EBES Projects**: Each First and Second year MBBS Students have to prepare and submit the one EBES Project under guidance of one faculty.
 - b. **EviGenCHIP program** : Third MBBS Part-I student undergo two days workshop on Evidence generation community health interventional programme (EviGenCHiP) and then do and submit one Community based projects under guidance of allotted guide.
 - c. **EBES Clinical Queries** : Third MBBS Part – II student prepares and submit EBES based clinical queries which are critically appraised as part of their learning EBES modules.
 - d. **EBES based Seminar/ Case Presentation / Journal Club** : First all the PGStudents are orientated and taught about EBES and EBP orientation

workshop and then they incorporate latest best available evidences in Seminar/ Case/ Journal Club Presentation which are critically appraised by the faculties of the departments.

2. **Continuous cumulative evaluation system (CCES)**– Continuous evaluation- every lecture and practical session is evaluated for the students. Weightage is given on day to day assessment of students and which also reflects in preparation of their internal marks.
3. **Student Learning Support System (SLSS)** –Categorization of students into Slow, mediocre and advanced learner groups as per the performance and to provide learning support accordingly.
4. **Student Mentorship and Counseling System (SMCS)** – Structured mechanism for regular monitoring, mentoring and counseling of students, for solving academic as wells as non-academic issues of the mentees by their allotted mentors
5. **Feedback on Curriculum** : feedback on curriculum is taken from various stakeholders like Students, Teachers, Alumni, Employers and professionals (e.g. Examiners, Invited Guest lecturers or Speakers on Curriculum. And Feasible novel suggestions are incorporated in the curriculum through a structured mechanism established.

10. Brief Annual Report

a. Milestones achieved so far Since inception:

I. Academic Milestones:

- Statutory recognitions: The B.D. S, M.D. S and Dental mechanics programs have duly been recognized by the dental council of India following the affiliation of K.M. SHAH Dental College and Hospital with Sumandeep Vidyapeeth.
- Being a constituent unit of Sumandeep Vidyapeeth the institute has got Accredited with A grade scoring 3.53. out 4 on CGPA scale.
- Value Added courses that enhance the academic value of dental education have been stated and successfully conducted for around 5 years.

II. Milestones related to teaching and learning:

- The Dental Education Unit was established in the year 2012 with the aim to promote training and innovation in teaching, learning and evaluation methodologies.
- Comprehensive curriculum development: All the programs run by the dental college have been regularly updated revised and implemented according to Statutory recommendations, value additions from curriculum bank and with strict adherence to the evidence-based education system guidelines,
- Introduction of innovative teaching learning and evaluation methods: Teaching learning methods based on Evidence based education system like Role Play, Role Modelling, Peer group Discussion, Evidence based Journal club and Seminar, development of evidence-based treatment protocols, Simulation methods have been introduced from time to time. Evaluation methods of continuous cumulative evaluation system and objectively structured clinical/practical examinations have been introduced for comprehensive and transparent evaluation.
- E content Development and delivery: the institute has reached the milestone achievement of training majority of the faculty members in methods of developing and delivering E content. Around 72 E content lectures have been developed and delivered by the faculty for undergraduate and post graduate teaching.

III. Research milestones:

- The institute has a total of 20 Copyrights/patents in granted, published, and applied status, 05 extra mural funded projects, 06 intra mural projects (SV funded) and 872 number of self-funded research.
- Institute and its various departments have made in total 06 landmark MOU: Department of oral and maxillofacial surgery K.M.Shah Dental college and hospital: University medical center Hamburg Germany, Department of oral medicine and radiology K.M.Shah Dental college and hospital: Department of oral medicine and radiology, institute of dental sciences, Siksha-O-Anusandhan university, Bhubaneswar Orissa, Department of oral medicine and radiology K.M.Shah Dental college and hospital: Actorius innovation and research limited, Pune and K.M.Shah Dental college and hospital: faculty of dentistry, PAHER University, Udaipur. K M Shah Dental College: People's Dental Academy, Bhopal.
 - PubMed- 22
 - Scopus - 28
 - WOS- 24

IV. Milestone related to infrastructure development:

In addition to infrastructure enhancements as prescribed by Dental council of India the institution has established the department of oral Implantology, Muskan Dental home, Micro endodontic Unit, and the Tobacco cessation centre.

b. Significant Achievement during the academic year 2020-21:

The evidence of success for the introduction of Value-added courses was observed for Minimally Invasive Fixed Prosthodontics, Clinical use of Platelet Rich Derivatives and Nitrous Oxide Inhalation Sedation by seeing many students registering for the above-mentioned program.

- 16 Number of awards/recognitions received for innovation/discoveries,
- A total 20 linkages were established in this year.
- A total of 51 publications in 22 in PUBMED, 28 In Scopus, 24 WEB OF SCIENCE and 07 in UGC indexed journals were published by the teaching faculties in the institute.
- 11 book and 05 chapters were published by the KMSDCH Staff and Students,

c. Best practices/innovations in academics, research & Management with their impact (As per the NAAC 7 criteria)

- **Title of the Practice: Student Learning Support System (SLSS)**

Objectives of the Practice

- To have a thorough evaluation of students' progress
- To instil and promulgate the concept of collaborative learning through assignments, discussions, demonstrations, and projects.
- To nurture a sense of encouragement amongst students for improving their performance in subsequent examinations.
- To enable students to inculcate and practice different learning strategies to absorb refractory topics most effectively in a pragmatic manner.

The Context

As teaching and learning form two sides of the same coin, neither one can be considered more important than the other. Nevertheless, it becomes essential to bridge the gap to have an effectual positive output from the students. To achieve an effectual and efficient output from the students it becomes essential to have a thorough functional behaviour assessment. A functional behaviour assessment (FBA) identifies where or in which area of education and when (pertaining to certain aspects of change in the quality and level of education), and the likely reasons why a behaviour of concern happens. Behavior of concern, in its most pragmatic nature, can be defined as inability to gain or acquire new skills, unresponsiveness to instruction, inability to complete assignments or projects on time and a reduction in students' performance as evidenced by a reduction in grades. Functional behaviour assessment can be undertaken in the 3 stages. First, to identify the problem and defining the behaviour. Second, gathering information about the antecedents and consequences that trigger and maintain the behaviour of concern. Third, forming a hypothesis by analyzing the relevant information to determine the root cause of the problem that will enable in the formulation of an effective remedial strategy. Post assessment the formulation of a learning support plan requires a multipronged approach to incorporate interventional effectiveness at various levels to address the problem. The Functional Behavior Assessment relies on multiple sources of information such as a review of student's records, structured rating scales if present, collection of direct observation data, identification of any health issues that may

have a bearing on the students' performance, consideration of environmental conditions that may impact behaviours of concern. The SLSS in its broad scope aims to achieve the above in its most comprehensive nature while maintaining effective and congruent communication between teachers and students.

- **Title of the Practice: Introduction of Flipped Classroom as a teaching tool for the graduate program**

Objectives of the Practice

- To make teaching learning more student centric
- To inculcate the concept of learning through videos and understanding the concepts beyond college hours.
- To instil the habit of prior learning using provided videos and discussing the subject with the teacher/peer during lecture classes.
- To train the students to perform exercises during practical sessions viewing the videos provided beforehand.
- To sensitize students to view, understand the content/concept presented in the video at home (beyond college hours).
- To develop the digital library of lectures and practical techniques involved in teaching the various subjects of the dental curriculum.
- To be able to discuss the subject with the teacher/peer during theory lecture based on the learning from the video/PPT presentation provided to the students beforehand.
- To perform the said exercise based on the learning from the video during practical session.
- To assess the performance of the students on the said topic and identifying the need for facilitation if any

The Context

Learning has always been more productive when it is student centric. Participation of the students in teaching learning is equally important as is teachers' involvement in teaching. Conventional methods of teaching and learning have been followed for years; newer techniques have been used introduced as evidence based effective teaching and learning methods. Of this flipped classroom becomes a good student centric teaching technology. Amongst various methods Flipped Classroom concept was identified by the institution of KM Shah Dental College and Hospital to be incorporated in teaching. The method of flipped classroom had advantages of making the student more responsible in learning, gave them the possibility of revising material multiple times and reflecting the same during their theory / practical sessions. The method saved on time as the time usually ear marked for didactic activity was used by the faculty to focus on student interaction and their problem solving. However, the complex topics and demonstrations cannot be converted as flipped classroom.

The practice consists of 4 phases –

1. Phase I: Preparation of high-qualityself-explanatory PPT presentations/video recordings of lectures and practical exercises.
2. Phase II: These videos are then provided to the students 2 days in advance to their flipped classroom exercise. Flipped classroom exercise is scheduled on the day when the lecture/practical was planned according to conventional teaching schedule.
3. Phase III: Students are asked to discuss the theory subject with the teachers/peers or perform the said practical exercise and clarify the doubts that might have risen during self-study at home.
4. Phase IV: the student is then assessed by the instructors

Evidence of Success

The method of flipped classroom had advantages of making the student more responsible in learning, gave them the possibility of revising material multiple times and reflecting the same during their theory / practical sessions. The method saved on time as the time usually ear marked for didactic activity was used by the faculty to focus on student interaction and their problem solving.

Problems encountered and Resources Required

The complex topics and demonstrations cannot be converted as flipped classroom.

Developing the digital library of lectures and practical techniques involved in teaching the various subjects of the dental curriculum understandable by the students

Preparing appropriate assessments for gauging the performance of the students on the said topic and identifying the need for facilitation if any

10. Brief Annual Report

a) Milestones achieved so far Since inception:

- The department has organized various workshops on Research Methodology, Biostatistics & Google Forms for development of the academic fraternity.
- The department motivates students to participate in various academic events within & outside university as a result students have won various awards such as Swachha Bharat, Scientific Paper presentation and Sports events like Powerlifting competition
- For enriching the students of MBA (Healthcare) and making them to adopt the challenges of current requirements of Healthcare sector the department has organized workshop on NABH Guidelines, Internal Auditor etc.
- The department is proud to declare more than 95% result success ratio in university examination
- The department Boost 98% placement of students in various reputed organizations regionally as well as nationally.
- The faculties at department have published more than 50 research papers in various Journal like Scopus, Web of Science, UGC care List etc.

b) **Significant Achievements during the academic year 2020-21**

- Student of MBA (Healthcare)-Part Time achieved State level award on Junior Gujarat State Power lifting Championship 2020-21
- 90 % Students of MBA (Healthcare) were very well placed in reputed organizations in state and nationally. Average package 3 Lakhs per annum.

c) **Best practices/innovations in academics, research & Management with their impact.**

A. Evidence Based Education System.

i) **Objectives of the Practice**

- The Practice is implemented to introduce students from the basis of science which is proof or Evidence of the phenomenon they are and will be studying in their curriculum.
- Another objective of this practice is to teach students the method by which they will be capable of searching and identifying evidences for the scientific topic they have been studied.

- To improve the basis of the phenomenon they have been studying repeatedly since a long time but still do not grasp it properly due to lacking of enough evidence explaining the scientific phenomenon.

ii) The Context

The Evidence Based Education system is derived from Evidence based Practice. The Department of Management is engaged in evidence based management practice. This is a unique and innovative practice in the field of Healthcare Management. The Evidence based education System training program are conducted every year for the newly joined students. For effective implementation of this practice, the Department of Management conducts evidence based orientation program for all the students of Ist Semester.

iii) The Practice

Evidence based Management Practice in the Management profession is a unique concept and this practice is performed exclusively in Sumandeep Vidyapeeth. The Practice of Evidence based concept helps in the effective implementation of managerial decisions. The concept of evidence based management practice helps in using the newer managerial techniques for effective decision making. At Department of Management, the students of MBA(Healthcare) are well trained in the evidence based practice through the regular conduction of activities like Evidence based Seminars and Journal clubs. These activities help the students to integrate the best available evidence on a problem and how to solve the problem effectively using evidence based management practice.

iv) Evidence of Success

Evidence based practice have greatly improved teaching and learning methodology in both teachers and students. This has greatly encouraged all the students to move towards the research area. The practice has helped the students to develop the interest in the evidence based management field.

v) Problems Encountered and Resources Required

Sumandeep have all the facilities that could require for the implementing this program. As such to practice EBES one must require Internet, Good Library with recent journals, eases of accessibility. Sumandeep Vidyapeeth does provide these facilities to every Teacher, Doctor, Health care practitioners and students. So far, we have not faced any difficulties in implementing this program at our institute.

B. Continuous Cumulative Evaluation System (CCES)

i) Objectives of the Practice

The main objective of this practice was to improve student performance and to assess the level of understanding for the topic by implementing various component of evaluation throughout the semester. These includes class test, mid semester examination, assignments, MCQs and projects.

ii) The Context

The Continuous evaluation system helps the students to develop a deep understanding on a topic. The evaluation done at periodic interval helps the student to keep a track of their progress in a respective subject and enables them to develop the thorough understanding of the subject.

iii) The Practice

Indian higher education has always promoted innovative teaching learning mean which can improve the overall knowledge and academic performance of a student. Sumandeep Vidyapeeth have implemented Continuous Cumulative Evaluation System (CCES) as one of the best practices to offer. The CCES is being practiced in our institute for all subjects both theory as well as for practical subjects. The CCES is practiced by conducting regular three class tests], two mid semester examination, MCQs, Assignments and Projects of the respective subjects.

iv) Evidence of Success

The practice of CCES has helped the students to develop the interest in subject and understand the subject in a better way. This practice has helped them to have good academic performance.

v) Problems Encountered and Resources Required

The Department of Management is well equipped with various infrastructure required to conduct the CCES effectively.

C. Comprehensive Feedback System (CFS)

i) Objectives of the Practice

- To promote & enhance stakeholder satisfaction level.
- To ensure continual improvement of academic, co-academic, extra academic activities including that of campus support services & administrative services.
- To promote the continual performance improvement of faculty, non-teaching staff, Secretarial staff and house-keeping staff.

ii) The Context

During the last decade due to the globalization the inter country barriers have disappeared. There is free flow of services & human resource across the countries of the globe. This has led to the enhancement of expectations for provision of quality services and quality human resource those are globally competent.

In this background the university initiated the campus wide review of its services provided to the student community & the patient community who are the most important stakeholders of the organization to ascertain the quality of service provided.

Initially university focused on students' development through classroom & hospital-based teaching-learning, library, basic support services such as hostel, mess, water & sport field. Need was felt to implement the feedback system that can give the inputs on areas for further improvement mainly in student focused & patient oriented services. Therefore, the practice of comprehensive feedback system was implemented.

iii) The Practice

Enhanced interaction with all the stakeholders & gathering their perception about the activities done & services provided.

Ascertaining the quality of the activities/services to meet the needs that are specific to the expectations of mainly students of the campus.

Inculcating the use of planning culture, identification of step-by-step component of the performance, performance in adherence to standard operating procedures, objective analysis of the results, identification of non-performing areas/system failure, taking corrective & preventive actions to improve the conformance to the system, human resource & ensure achievement of quality

& continual improvement. Following components are identified under comprehensive feedback policy:

- Feedback of Students
- Feedback of Teachers
- Feedback of Employers
- Feedback of Alumni
- Feedback of Professionals

These components of the feedback system address teaching learning activities, status of patient services, status of functioning of the secretarial services, hostel, mess, water supply etc

iv) Evidence of Success

CFS have greatly improved student academic outcome as on Feedback review provided by students in SSS the students have greatly appreciated this feedback system providing them the opportunity to rate our activity. This system has also provided us a tool to assess our lacuna and fill it with our efforts to make it perfect.

v) Problems Encountered and Resources Required

Designing a feedback is a continuous process each year we learn from past feedback and try to improve it. As of it there are no such problems that could be due to deficiency of any resource provided by Sumandeep Vidyapeeth University.

D. Student Learning Support System (SLSS).

i) Objectives of the Practice

- Boost up the self-confidence of slow learner students and to realize their weakness.
- To enhance the skills in respect of learning process.
- To eradicate the scare about study.
- To make the equal level of slow learner and advance learner.
- To motivate for an innovative and creative mindset.
- To organize the workshop/seminar/guidance program for slow learner and advance learner.
- Help to understand paper pattern, question pattern, etc

ii) The Context

SLSS Program is designed to improve the student knowledge in the subjects and improve their academic results. In India it has in various reports generated of placement of graduate students it has been highlighted that the cause of unemployment among young graduate is due to lack of knowledge related to their subject. Because of the same reason UGC have also taken focused actions to improve student academic results. Therefore, we have prepared this SLSS Program accordingly to cop up with the requirement of market. The Scope of SLSS Program is to improve in students in area of course core knowledge, clarity in each subject they have studied, good practical knowledge and applicability. These areas of improvement are very necessary in a student life as they will help him to excel in their future life time. The SLSS Program will help students to select the path for their future as good knowledge help one chose what they want to do in the future.

iii) The Practice

SLSS Program is conducted for the all students. The new students admitted to the institution are first categorized various categories on the basis of their obtained percentage in Graduate examination, these students are then provided special class to make the familiar with the course. In each semester, the institution conducts SLSS program after 1st and 2nd Mid Semester dividing students in the group of Slow Performer, Mediocre Learner and Advance Learner. These students are then given special class accordingly so they can improve their academic performance. For this purpose, the syllabus of the course in each institution has been divided in three parts i.e. Good to Know, Must to Know and Desirable to Know. This division helps the teaching staff to for the selection of the topics for each category of the student and teaches them accordingly.

iv) Evidence of Success

The SLSS program is conducted at extensive level and reports are being generated every year. The report contains the performance of each student and class wise. So far, the program has shown positive rise in the performance of students.

v) Problems Encountered and Resources Required

The Department have all the facilities and resources that could be required for the conduction of the program. So far, we have not faced any problem while implementing this program.

E. Mentorship Program

i) Objectives of the Practice

- Accelerates learning
- Reduce stress
- Facilitate potential and skill development
- Change in thinking about self
- Help to make decisions
- Needs help to overcome relationship problems
- Overcome stress and discomfort
- Better adaptability to new environment

ii) The Context

After joining the Professional course, students face pressures, which may be academic, personal, or career related. At times they may feel stressed and interfering in their pursuits. There is cross cultural, neo-ethnic convergence, increasing academic competition, Peer pressure, unique adolescent problems, mounting career demand, etc. among the student community. To prevent student going through these stress factors and to help them overcome the above-mentioned problems, the Local Mentor and counselor system is implemented in the College where in a teacher acts as Local Mentor and counselor to an allocated group of students. Each teacher helps the students to cope up academically, give personal Counseling, extend career guidance, support co-curricular activities, co-ordinate welfare activities, interact with their parents, seek student's involvement in pursuit of college vision and objectives and establish healthy, co-operative and academic ambience in the College.

iii) The Practice

- The Mentor shall interact with his / her group of students regularly
- The Mentor shall counsel his/her group as per Do's and Don'ts
- To initiate bridge, remedies and Enrichment Programme for academically weak (slow learners), and advanced students

- To maintain complete personal data of students and their performance progress.
- To address various Department related group problems and performances
- To periodically interact with parents as to their ward's performance

iv) Evidence of Success

The Program is conducted extensively by all the Mentors and reports are being submitted to the Coordinator of the program. So far Students of Department of Management have found to be utilizing this facility quite well to resolve their problems. The assigned mentors are found to be very useful for this purpose

v) Problems Encountered and Resources Required

The Department have all the facilities and resources that could be required for the conduction of the program. So far, we have not faced any problem while implementing this program.

17. Institutional Social Responsibility and Community outreach activities

i. Lung Cancer awareness program was conducted on 2nd November 2020

Lung cancers can arise in any part of the lung, but 90% -95% of cancer of the lung are through to arise from the epithelial cells, the cell lining the larger and smaller airway , For this reason , lung cancer are sometime called bronchogenic cancers or bronchogenic carcinoma. Cancer also can arise from the pleura or rarely from supporting tissues within the lung. i.e. the blood vessels. The lung also is a very common site for metastasis from tumor in other parts of the body. The awareness program was conducted at OPD premises at Dhiraj Hospital total 45 beneficiaries has attended the program. Awareness was carry forward by video teaching , expert lecture along with exhibition.

ii. Cervical cancer awareness programme was celebrated on 30 January, 2021 on the occasion of world cancer day.

Of the several types of cancers, there is one form that can be prevented by timely screening and precautions. Known as cervical cancer, this condition is caused by the human papilloma virus (HPV) and has emerged as the second most common cause of cancer-related deaths in Indian women. Statistics point out that there are 122,000 new cases of cervical cancer annually in the country, with 67,500 women succumbing to the disease, accounting for 11.1% of total deaths related to cancer. On World Cancer Day on February 4, it is imperative

to understand the risk factors that can predispose women to cervical cancer. An Awareness programme was conducted at Dhiraj general hospital. Participants: 27 students from 2nd year GNM and 4 faculties, role play and informative charts were presented in the hospital entrance. Relatives of patients and females found it as a useful session.

iii. Sexual & reproductive health awareness day on 12th February, 2021

In India, discussing sexual wellness and reproductive health issues openly is considered taboo, due to which many health issues go unnoticed for years. The celebration of this day aims to make this subject a much more comfortable topic to discuss. Sex education on what to expect and safe sex are the main health promotion components, as STIs remain a significant health concern. There are various sexual health issues like HIV, AIDS, other sexually transmitted diseases, and reproductive tract infections (RTIs) that affect millions of people across India.

Lack of awareness and proper guidance on sexuality and reproductive health make adolescents more vulnerable to sexual exploitation, early unintended pregnancy, STDs, and other health physical and mental issues. Many patients are hesitant to talk about sexual health with their doctors due to embarrassment or lack of knowledge on the topic. Even health care professionals don't introduce the topic to their patients, resulting in their patients feeling unrecognized and unserved. Awareness programme was done at Dhiraj General Hospital.

iv. Exhibition on prevention of accidents in children was done on 26th February, 2021.

The word 'injuries' has replaced the erstwhile terminology of 'accident'. Rightly so, as the term 'accident' denotes an event which has occurred suddenly and there was no way to anticipate or prevent it. On the other hand, injuries can both be anticipated and prevented. Injuries in children are major health hazards. Childhood injuries are also considered to be the second most common cause of mortality in school age children. Other than stray data from localized or hospital-based studies, the exact magnitude of this major public health problem remains unexplored in a nation-wide survey, specifically in children. To prevent this major burden, it is imperative that we understand where injuries occur (at home, at school,

at play or on road), which children are affected (age group, urban/rural, gender), what are the various types of injuries, and most importantly, what is the magnitude or burden of the problem.

v. Awareness program on suicide prevention was conducted at Mental Hospital Karelibaug and Sumandeep Nursing College on 10th September 2021.

Suicidal thoughts, much like mental health conditions, can affect anyone regardless of age, gender or background. In fact, suicide is often the result of an untreated mental health condition. Suicidal thoughts, although common, should not be considered normal and often indicate more serious issues.

September is Suicide Prevention Awareness Month — a time to raise awareness on this stigmatized, and often taboo, topic. In addition to shifting public perception, we use this month to spread hope and vital information to people affected by suicide. Our goal is ensuring that individuals, friends and families have access to the resources they need to discuss suicide prevention and to seek help. Poster presentation, street play, press reporting were done during this day.

Activity guided by: Mr. Suresh V, Prof, SNC & Ms Bhumika Patel, Assistant Prof. Ms. Sweety Rawal. Participants: 150 people in hospitals. Students participated from 3rd year BSc. Nursing and Second year MSc. Nursing.

vi. Exhibition on misconception about mental illness was conducted on 10th October, 2020 at Mental Hospital Karelibaug and Sumandeep Nursing College.

Mental health or psychological disorders are quite common in this day and age we are living in. Surveys suggest that around 14% of the population or 1 out of 7 individuals suffer from a psychological disorder. In India, this translates roughly to 200 million individuals. The most common mental health disorders are depressive disorders, anxiety disorders and substance abuse. About 50 million individuals in India suffer from depressive disorders and an equal number of people suffer from anxiety disorders. They can be seen across different stages in an individual's lifespan. However, depression, anxiety and eating disorders may be more commonly seen in women whereas substance abuse is more common in men. The elderly may be more prone to depressive disorders. It has also been seen that the underprivileged and uneducated population, may be more prone to psychological disorders. In children, an

additional category of disorders such as developmental disorders may be seen. Activity guided by: Mr. Suresh V, Asso. Prof. SNC& Ms Bhoomika Patel, Asst.Prof ,Ms. Sweety rawal.Participants:150 people in hospitals. Students participated from 2nd year GNM and Second year MSc. Nursing.

vii. Immunization awareness day was celebrated on 16th August, 2021 at Kasiben Govardhandas Hospital and Sumandeep Nursing College.

There are many debates around the safety of many of the vaccinations available, however governments across the world, acting upon the advice of leading scientists and medical professionals overwhelmingly support immunization schemes. Despite this, the growing voice of the anti-immunization supporters (and some other factors) has led to a decrease in the number of people becoming vaccinated and there is little surprise that the number of people affected by diseases that in some cases had been eliminated from some countries is on the rise again.

Activities guided by Prof. Rajesh P. Joseph, HOD Dept. of Child health Nursing, SNC, Mrs. Rupal Patel, Assistant professor from SNC., Mrs. Nirali Soni MSc. Nursing Tutor from SNC & Mrs. Chandani Patel MSc. Nursing Tutor from SNC. Students participated from 3rd year BSc. Nursing and Second year MSc. Nursing.

IV. Evidence Based Education System Cell

1. Objective:

- i. To prepare health care provider, capable of functioning independently in both urban and rural environment with special attention to prevention, diagnosis and treatment planning of the diseases/health related problems by keeping abreast with scientifically proven empirical evidence.
- ii. To provide education that allows hands-on-experience both in hospital as well as in community setting with systematic evidence-based approach, educational experience that emphasizes health rather than only disease with outcome-based education as a goal.
- iii. To inculcate the technique of reasoning, ability to understand the nature and hierarchy of the evidence, critically choose the best evidence and apply it in clinical practice.
- iv. To facilitate a learning experience that will provide the skills to develop, implement and disseminate an evidence-based approach for effective health care practice.
- v. To provide the health care provider, who will believe in the value of life-long learning and value the evidence in making clinical decisions over opinion.

VI. SV, Institutional Animal Ethics Committee

1. Objective

The motto of Prevention of Cruelty to Animals (PCA) Act 1960 as amended in 1982, is to prevent infliction of unnecessary pain or suffering on animals. The Central Government as enumerated under PCA Act 1960 has constituted a Committee for the Purpose of Control and Supervision of Experiments on Animals (CPCSEA) which is duty bound to take all such measures as may be necessary to ensure that animals are not subjected to unnecessary pain or suffering before, during or after the performance of experiments on them. For this purpose, the Government has made “Breeding of and Experiments on Animals (Control and Supervision) Rules, 1998” as amended during 2001 and 2006, to regulate the experimentation on animals.

The objective of this SOP is to contribute to the effective functioning of the Institutional Animals Ethics Committee (IAEC) so that a quality and consistent ethical review mechanism for research on animals is put in place for all proposals dealt by the Committee as prescribed by the CPCSEA under PCA Act 1960 and Breeding of and Experimentation (Control and Supervision) Rules 1998, as amended in 2001 and 2006

XII. STUDENT AND FACULTY DEVELOPMENT CELL

Department of Staff and Student Welfare 2020-21

Preface

This report is prepared in accordance with the *aim and objective of Student and Faculty Development Cell, Sumandeep Vidyapeeth*. The report is a formal accountability document that details the SFDC's activities during 2020-21. Our Institution is at the forefront of creating change in how research and education are practiced. This report highlights the number of faculties given benefit under the various incentive schemes. The report presents the brief summary of the programs conducted by SFDC. The report presents the action taken this year and the future plan of action for the upcoming year. In preparing this report, we have endeavoured to provide readers with a useful and informative picture of the SFDC's performance over the past twelve months.

Aim:

To build a platform of innovation and educational leadership to strengthen the faculty profile to compete with the world class excellence and to bring a qualitative and quantitative change in the teaching-learning process for both undergraduate and post graduate students of the university.
